

Nose to nose

Wade Weidman and Governor William Waller have a nose to nose confrontation while Wade's sister Shelley looks on during a recent event at Lake Lowndes, State Park in Columbus. Gov. Waller will be in Waveland Tuesday for ground breaking ceremonies at Buccaneer State Park. Wade and Shelley are children of Mr. and Mrs. Stan Weidman and grandchildren of Mrs. Dorothy Weidman of Waveland.

Groundbreaking ceremonies set for Buccaneer State Park

Bill Barpett, Mississippi Park Comm. director, and Perry Gibson, State Park commissioner, announced today in Jackson that ground breaking ceremonies for Buccaneer State Park will be held June 18 at 6 p.m. at Waveland, Miss.

Funds for the development of the new coast front park will come from HB660, a \$25 million act for state park improvements and new recreational area developments.

Barnett stated, "We are pleased to make this announcement on Buccaneer today. Many hours of planning and hard work by our park staff have gone into the preparation for this new state park. We are aware of the growing recreational needs for south Miss. residents and particularly for those living along the Miss. Gulf Coast."

"The Buccaneer ground breaking ceremony," Barnett continued, "signals the beginning of a significant development program for the Park commission, one which will provide first class recreational facilities for coast residents. Had it not been for the strong support given us by the state legislature the development of Buccaneer Park would not be possible."

Comm. Gibson stated, "The ground breaking ceremony promises to be an

outstanding event. Governor William Waller will be present as well as a number of local and state officials. The Kessler Air Force band, in prelude to the ground breaking, will play in concert selected music, starting at 5:30.

"A Captain and Lady Buccaneer costume contest will be a highlight of the afternoon's activities. All children under the age of 15 are invited to participate in the costume contest conducted by the Waveland VFW Auxiliary. Cash prizes will be awarded to the three boys and three girls with the most original pirate costumes."

Other features of the event will include all Boy and Girl Scout units in Hancock County to parade with a Scout color guard; costumed contest participants and Little League and Babe Ruth league teams in uniform will pass in review and free refreshments will be served to spectators by members of the Bay-Waveland Altrusa club.

AMCO Construction Co., Bay St. Louis and Gregory Constructors, Inc., Gulfport, low bidders on the engineering and architectural contracts for the park will be responsible for the initial construction program.

New facility developments for the park include a park entrance building, three comfort stations with showers, an

activities building with a group camp store and a laundromat, a manager's residence and a park maintenance building for the park camping area.

Facilities for the day use area include two picnic pavilions with restrooms and one large open air pavilion for group meetings, family reunions and dances.

A class "A" camping area (104 camping spurs) with electricity, water and sewer hookups at each campsite will also be developed during the initial

phase of construction. Paving of roads and parking spaces to accommodate 205 cars will be completed. Total cost for the initial development program is estimated at \$1,583,134.

The public is cordially invited to attend Tuesday's ground breaking, Gibson said.

In case of rain, the entire ceremony will be held in the new Waveland American Legion Home on Coleman Ave.

GAO interception urged for NASA contract at MTF

Governor William Waller and State Senator Martin Smith met Tuesday in a special session with U. S. Comptroller General Elmer Staats and officials of the General Accounting Office in Washington to urge a favorable GAO decision on award of a \$100 million plus space shuttle contract by the National Aeronautics and Space Administration.

In attendance at the meeting, held in the GAO building, were the deputy comptroller general, staff members of the Mississippi congressional delegation and representatives of all four contractors who had bid on the NASA solid rocket motor contract, tentatively awarded by NASA in November 1973 to Thiokol Chemical Corp. of Brigham City, Utah.

In their presentation to the comptroller general, Smith and the governor both stressed the fact that there was a \$400 million federal tax dollar installation at the Mississippi Test Facility in Hancock County which was presently only 25 percent utilized.

Waller told the gathering that he felt there was "an obligation to use that facility at the greatest cost advantage possible" and noted that "it was the intent of Congress, as stated in its appropriation committee report concerning NASA's funding, that existing facilities be made available and their use be encouraged by the federal government."

Smith told the gathering Wednesday telephone interviews with the governor and senator further stressed the fact that the state was very much involved in the facility (MTF); in 1963 the state bonded the debtless facility in Hancock County and Pearl River counties and the municipalities was \$20 million.

"In a five year period, however, to furnish all the governmental services such as water, sewer, roads, etc., and schools required for the living of these people, the bonded indebtedness had risen to \$19.3 million."

"In addition to that increase in indebtedness," Smith continued, "40 percent of the prime land area of Hancock County was, in effect, removed from the land assessment rolls."

Another fact brought by Smith and Waller was that in 1962 Dr. Werner von Braun (top NASA space scientist), in an address to area residents, stated that "the local people had a duty and responsibility to shoulder this tax burden and provide these services."

A year later, R. L. Webb, then director of NASA, in remarks made at the test facility, promised that the MTF

facility "was a long range program".

Based on these statements, Smith told the federal officials, private businessmen in the two counties proceeded to furnish the various commercial services such as stores, restaurants and subdivisions. When it developed that the NASA program at MTF was, in fact, not such a long range program, merchants and businessmen then suffered an economic loss which came at the same time that they were required to assume the increased tax burden to pay off the bonded indebtedness.

Smith told the Echo that he and the governor made a "hard hitting presentation" that opened some eyes and raised some issues that had not been brought up before.

The senator from Poplarville said, "I don't think anyone in Washington ever realized the scope of the tax investment that must be considered."

Smith expressed what he termed "deep and sincere appreciation" to Gov. Waller for the "vigor with which he pursued this matter" in the Washington meeting.

Other points discussed were a reference by NASA in its evaluation of the contract bids submitted that tax rates in Mississippi were from \$1.30 to \$1.50 higher than in other states.

Smith said that the state's bonded indebtedness had risen to \$19.3 million, which was a result of the state's obligation to furnish all the governmental services such as water, sewer, roads, etc., and schools required for the living of these people, the bonded indebtedness had risen to \$19.3 million.

"In addition to that increase in indebtedness," Smith continued, "40 percent of the prime land area of Hancock County was, in effect, removed from the land assessment rolls."

Another fact brought by Smith and Waller was that in 1962 Dr. Werner von Braun (top NASA space scientist), in an address to area residents, stated that "the local people had a duty and responsibility to shoulder this tax burden and provide these services."

A year later, R. L. Webb, then director of NASA, in remarks made at the test facility, promised that the MTF

Board pledges to renew efforts to secure passage of bond issue

By Dan Barber

In a session fraught with disappointment and renewed resolve, members of the Hancock County School Board Tuesday pledged to get out and "campaign hard" should they succeed in getting another bond election called. Board president Horace Davis

summed up the feelings of the board which suffered a close defeat at the polls last Tuesday, saying he believed the issue would pass if brought up for a vote again.

"I believe if we spend a little more time on this thing next time," Davis said, "that we can get this bond issue passed."

The \$1.5 million bond issue, which would have financed school improvements at each of the county's three public schools in addition to constructing a new high school in

Lakeshore adjacent to Gulfview school needed 60 percent of the vote to pass.

Official vote tabulations showed 638 votes for the bond issue and 460 opposed leaving the board 20 votes short of the required 658 votes for passage.

Board attorney Joseph Gex said that a new election could be called probably within six to eight weeks. Gex said that he was still waiting on a written response from the state attorney general's office affirming a verbal ruling placing no time limit on when a second election could be called.

Strongest opposition to the bond issue came from voters in Kiln, Fenton and Catatoula communities, but support in the southern part of the county, notably Pearllington, was also falling. Although voters in Pearllington approved the issue, the margin of passage was only seven votes.

In other business the board took under advisement bids received for the sale of used surplus equipment. Bids received for one International Cub Tractor and mower included \$152.95 from C. J. Ladner, \$156.00 from Sol Cuevas, \$302 from Carroll Mayne, \$301 from Ruth and Chink Lafontaine, \$282 from Smith Brothers Tractor in Poplarville, \$125 from P. J. Ladner, \$225 from Garland Baine, and \$125 from Robert H. Baxter.

Bids received for surplus busses included \$100 from P. J. Ladner for bus 28, \$75 each from Aron Ladner for bus 28 and 22, \$51.99 for any bus from Merle Martin, \$83.99 from Roland Ladner for bus 28, \$82.99 from Roland Ladner for any bus at Hancock North Central School, \$92.99 for bus 33 from Roland Ladner.

Bids on one 1968 Chevrolet pickup truck included \$55 from P. J. Ladner and \$175 from Aron Ladner.

Bids received on new school lockers and locks included Osco Supply, Gulfport, \$6,475.50 for 651 lockers 9"x12"x20", \$2,350 for 300 lockers 12"x12"x12", and \$965 for 300 padlocks.

Bids from Central School Supply, Jackson, included \$6,282.15 for 561 lockers 9"x12"x20", \$3,465 for 300 lockers 9"x12"x20" and \$2,085 for 300 lockers 12"x12"x12".

Bids from Martin School Equipment, Jackson, included \$5,273.65 for 651 lockers 12"x12"x20", \$3,460.75 for 300 lockers 12"x12"x20", and \$1,820.75 for 300 lockers 12"x15"x12".

The board agreed to readvertise for bids on repairs to the sewage treatment plant at Charles B. Murphy School after agreeing that the bid advertisement was not specific enough.

The board received bids of \$2,215 from Pollution Control Co. of Pass Christian and \$2,850 from Gary's Heating, Air Conditioning and Refrigeration for the repair work but failed to accept either bid after citing wide variances in the two bid proposals.

In other business board financial advisor Ed LeVasseur informed the board that notification had been received of the continuation of Title III funds for the forthcoming school year in the amount of \$60,000 for Hancock North Central School.

Pass Chamber endorses new service

by Bob Innes

The Pass Christian Chamber of Commerce unanimously endorsed the Mobile-Medic Ambulance Service, Inc., of Gulfport at a recent monthly meeting.

The endorsement came following a presentation by Les Ladner, who sought the backing during the ambulance service's current six-week membership drive. Ladner commented that the drive began June 3 and will continue until July 15. He further explained that about 15,000 members are needed.

Families in West Harrison and Hancock counties can join at a yearly rate of \$15. This fee allows members an unlimited number of transports.

Court opens an hour earlier

Hancock County Chancery Clerk John Rutherford has announced that for the remainder of the chancery court term now in session, court will convene each morning at 9 a.m. rather than at 10 a.m. Monday through Friday.

Coast Municipal Officers Association supports MTF rocket testing

The Coast Municipal Officers Association went on record Monday night in support of a resolution offered by Waveland alderman Charles Johnson calling for the National Aeronautics and Space Administration to reverse its decision not to award contracts to test solid fuel rocket engines at the Mississippi Test Facility.

The resolution, in effect, is the same adopted by the city of Waveland May 7 and which Waveland officials have circulated in hopes of gaining coast wide support.

The decision earlier this year by NASA to award contracts to the Thiokol Chemical Corporation of Brigham City, Utah over Lockheed resulted in the news that Thiokol intended to build facilities in the state of Utah to test the government engines. Lockheed stated in its bid proposal that it intended to utilize the Mississippi Test Facility should it be awarded the contract.

In the only other business before the association Monday night the body

approved the nomination of Moss Point alderman Chester Parks, Long Beach Mayor Donnie Simmons, and Waveland alderman Charles Johnson to form the nominating committee to present a slate of officers for the association's next election.

Bay St. Louis city commissioner Clarence Ladner urged members of the Gulf Coast association to caucus for favorable legislation to the coast during the state Municipal Officers convention in Biloxi June 20-22.

The meeting which was conducted in the Bay St. Louis American Legion Hall was attended by only a small representation of the association's members. Dinner was served by Hancock County Chancery Court Clerk John Rutherford.

Ms. Barbara Rappold, city clerk of Waveland, volunteered the city of Waveland for the site of the associations next monthly meeting.

A large haul

Hancock County sheriff Sylvan Ladner and investigating deputies stand before 12 lbs of marijuana, one lb of seeds and numerous articles of drug paraphernalia which they confiscated from the Shoreline Park residence of Albert and Cathleen Guillot, and Donald and Virginia Vincent. Tuesday about 8 p.m. deputies arrested the two women at the residence and later that night the two men were brought from Pascagoula where they were detained by Jackson county sheriff's office. All four were booked at Hancock county jail on charges of possession of marijuana and paraphernalia with intent to sell or deliver. Deputies are from left, Lathon Garriga, Fairley Necaise and special agent Ronald Peterson.

First week subscriptions said slow by Mobile Medic

The president of Mobile Medic Ambulance Service, an organization striving to initiate a plan of private ambulance service within Hancock and West Harrison counties, said Monday that a six week subscription drive to enlist members was currently not drawing the enrollment that was essential to the success of the venture.

Doug Burgin, president of the company that hopes to take over ambulance service being abandoned by funeral homes in both counties August 1, said first week response to advertisements in local media had been disappointing but not totally unusual for a relatively new concept.

"We're really trying to offer the people something incredible," Burgin said, "but to give them the best, people are going to have to support it."

The service that Burgin and Burt Patterson, secretary-treasurer of the company, propose to offer citizens of the

two county area revolves around a membership plan. For \$15 annually the company proposes to provide emergency and doctor authorized ambulance service to any member of the plan without restriction to the number of times the service can be used.

Service would also be

available to non-members but at a rate of \$40 per emergency call.

Ambulances used by the company would be special modular units built by the Mobile Ambulance Corporation of Dallas, Texas at a cost of \$22,000 and would be equipped with the latest in life support facilities.

The ambulances would also carry facilities that would allow instant radio communication between ambulance attendants and physicians or emergency room personnel at all hospitals.

"We're really a whole lot like what people might see on Emergency (a popular tv series)," Burgin said.

Burgin said that some of the hesitancy to enroll in the membership plan may be due to the idea of many people that their hospitalization plans or Medicare will pay for ambulance service.

"We advise people to check their policies," Burgin said. The great majority will find that ambulance coverage is very limited."

To succeed the company has calculated that it needs at least 15,000 members in the two county area to get it through the first year.

What happens if not enough people subscribe to form the strong membership base?

"We don't like to think about that happening," Burgin said, "but if it did we would be faced with two options. We could either offer a limited service to those areas that supported the concept or offer no service at all."

Burgin said he would welcome the opportunity to address any civic group to explain details of the service.

DOUG BURGIN

Flood protection ordinance now official for Hancock County

A flood protection ordinance for Hancock County residents, living outside municipal limits, was adopted by county supervisors at a special recessed meeting May 28.

A motion was passed unanimously by the four supervisors who attended the meeting. Beat one supervisor Jerry Ladner was absent.

There were no adverse reactions or comments regarding the controversial ordinance from the almost 50 county residents who showed up for the hearing.

At a March 4 meeting, supervisors adopted an ordinance tailored for Hancock County by the State Research and Development Center,

Chamber to host market

A farmer's market will be sponsored Saturday June 15 from 9 a.m. until 6 p.m. at Memorial Park in Pass Christian by the Pass Chamber of Commerce.

Chamber president Russell Singer said all residents of Pass Christian and the surrounding area were invited to bring their vegetables, fruits and farm products to be sold for their own revenue.

Sellers should call the Chamber to register.

The Story of Parchman

Prison farm or political prey?

by Adoree Shortle
Echo News Editor

Beginning this week, the Echo presents an in-depth series based on an investigation of the controversial Mississippi penal farm at Parchman - its lurid past, painful present and uncertain future. The series should be of particular interest to Gulf Coast residents as statistics show that more than 75 percent of Parchman's inmates come from Coast counties.

OUT OF THE DARK AGES

The 18-year-old girl, arrested on a narcotics felony, whispered "If I have to go to Parchman I'll kill myself."

The Gulf Coast youth who spent three years at Parchman in the '60s said, "I could show you scars on my back from the bullwhip. They beat me three times while I was there and I ended up in maximum security because I wouldn't play with the guards."

Neither one was being overly dramatic. In past years inmate suicides were not unknown nor were deaths from unexplained and uninvestigated brutalities.

As late as December 1973, tales of inmates sadistically beaten by guards, revealed to a sympathetic legislator, brought an investigation by the federal courts. A few weeks later, a prisoner's alleged suicide in the maximum security unit led to another investigation, sparked by civil rights lawyers.

Newly appointed prison officials declared suicide on the basis of testimony by other MSU prisoners. Signed affidavits by still other prisoners charged the incident was more murder than self-inflicted.

The actual truth was probably buried forever with the unfortunate man.

All the stories of past abuses, sexual perversions and indignities wreaked by guards on prisoners, appalling as they may be, actually pale by comparison to the history of exploitation and ravage of the entire institution by political figures who have used the prison for their own avaricious gains.

Why?

Why was a 33,000 acre penal farm, all under cultivation or in revenue producing livestock, allowed to disintegrate into a monumental example of mismanagement? Why had conditions within the prison become so debased that an 18-year-old girl would consider death a better

alternative than going to Parchman?

And, most importantly, what will be done about it? Probably the primary factor to be considered in an evaluation of the Mississippi penal farm is a combination of geography and politics - both bad.

Geographically, Parchman is isolated. Located in the north central part of the state in the heart of the Mississippi Delta, it's surrounded by plowed fields that go on forever and roads that seem to go nowhere.

END OF THE ROAD

The old man in the filling station outside of Yazoo City said, "Stay on this road. Don't never get off ... just go and go and you have to end up at Parchman ... it's at the end of the road."

More accurate than he realized, the old man was right. It is at the end of the road, for a lot of people and for a lot of reasons.

Virtually inaccessible except by car, Parchman is in the middle of endless miles of cotton fields, broken every once in awhile by a crop dusting plane, hanger. Huge plantations melt one into the other, most still the mainstay of third and fourth generation cotton planters.

Cotton is no longer king and the grandiose life that once was, is dead. But to many in the Delta, still living in a Tennessee Williams novel, it is the only life style possible - to change would be unthinkable.

An assessment of Parchman's history bears out the fact that those very Delta farmers - turned - legislators are the primary reason that the prison farm is in the shape it's in today.

CLASSIC RIP OFF

Documented cases of graft, extortion and contrived lawlessness have come out of Parchman, unabated, for years.

As late as Dec. 1973 when Jack Reed arrived unexpectedly to assume duties as superintendent, he found in a storage locker 500 pounds of meat from farm animals, packaged and waiting for shipment to an individual.

In an isolated and unused building, the door sealed by a rusted lock for which no one could find a key, some \$10,000 worth of new but ruined office furniture was floating in water on the concrete floor. It had been there a long time, he was told. It was bought for the new drug abuse center, but somebody had stolen the building.

Thousands of dozens of eggs from the chicken farm, hundreds of gallons of milk, cream and butter from the dairy, countless pounds of pork and beef had been systematically and surreptitiously carted away from the farm, for as long as the oldest inmate could remember. None of the revenue ever to turn up in Parchman's coffers.

Why wasn't it stopped? For several reasons.

What free world guard, possibly with a prison record himself and dependent on Parchman as his only livelihood, is going to tell on the man who gave him the job?

What native of the area, poor, unskilled and semiliterate - whose whole family has for years depended on Parchman to eke out a standard living, is going to refuse demands for implication by a powerful

legislator?

What prisoner, especially one on a life sentence, is going to refuse to be cooperative with a guard, particularly when the guard holds a gun and has access to the bullwhip? Besides, what has a lifer got to lose by sidetracking some produce especially when it might get him a few privileges?

What inmate on a five-to-ten sentence is going to turn down any opportunity to bargain for promises of special parole considerations? And if they don't come through, who will he complain to?

For job insurance and a healthy percentage of the "take" an accountant can always be found who will overlook irregularities and juggle a set of books. Especially when the man he's doing it for in on the con-

Food for the soul

Doug Anderson and Dan McCrimmon, nationally known poet-musician team, traveling with the Greater Gulf Coast Arts Council sponsored ARTRAIN, will bring their unique program to Bay St. Louis June 18, through the efforts of the Bay-Waveland Junior Auxiliary. The talented young artists will appear at Bay High, St. Stanislaus and Gulf View Haven Nursing Home during the day and will be featured guests at the Chamber of Commerce banquet that evening.

Junior Auxiliary ARTRAIN

Poet-musician team to bring ARTRAIN enrichment to the Bay

According to Bay-Waveland Junior Auxiliary ARTRAIN project chairman, Mrs. Lucien Gex, Jr., ARTRAIN activities will be coming to Bay St. Louis, June 18th, in the persons of Doug Anderson and Dan McCrimmon.

This poet and folksinger team has been working together for the past three years in the Poets in the Schools program, jointly funded by the National Endowment for the Arts and State Art Councils.

Anderson and McCrimmon met in Denver in 1964. McCrimmon was just beginning

to exhibit his talents as a folksinger while Anderson was starting to make his way as a poet and novelist. In the years that have followed the two have published separately as well as established a reputation for their work as a poet-musician team.

In 1973 Anderson's first book, *The One Real Poem Is Life*, was published. His second book, *My Sister Looks Like A Pear*, is due to be released this September by Hart, New York. Anderson has also published poems in *Nimrod* and *Black-Box*, as well as essays in *National*

Review and *West Coast Poetry Review*.

Dan McCrimmon's first LP, "Here to There", released by ABC Probe Records in 1969, received enthusiastic reviews in *Rolling Stones* and *Guitar Player* magazines. His latest album, "Colorado Folk," was just released by Biscuit City records, Denver. Plans are under way by Biscuit City to release in the fall a record devoted exclusively to Dan's originals.

The schedule for this poet-musician team sounds like a busy one. They will deliver programs at Bay High School, St. Stanislaus Camp and Gulf View Haven Nursing Home during the day on the 18th. A night program will be featured at the Hancock County Chamber of Commerce Mid-Year Membership Banquet to be held at 8 p.m. at the Bay-Waveland Yacht Club.

ARTRAIN activities are being brought to the Hancock County area through the participation of Bay-Waveland Junior Auxiliary members as tour guides and gallery guides on the ARTRAIN during its stay in Gulfport, June 20-24.

The ARTRAIN, a four-car touring art exhibit, will provide a unique adventure in the arts. Car I will be devoted to "A Vision of Creativity"; Car II, "A Vision of Man"; Car III, "A Vision of Art"; Car IV, will offer a setting for the artist at work. Visual experiences by means of color slides, transparencies, exhibits and unusual displays will be in the offering. In addition, artists, in the process of creating, will be available to observe and answer questions.

Additional attractions

surrounding the ARTRAIN are being planned. One such activity is the Children's Art Show. Paintings will be divided into four divisions: Division I-Grades 1-3; Division II-Grades 4-6; Division III-Grades 7-9; Division IV-Grades 10-12. Each painting should be framed and ready for hanging as all entries will be hung. Identification on the back of the painting should include the child's name, address, telephone number, school and grade. Paintings should be delivered to the Gulfport-Harrison County Library between June 12 and 14, noon to 5 p.m. for judging. Only one painting per child can be accepted. Ribbons and prizes will be awarded for Best of the show. Winners will be contacted and announced during ARTRAIN WEEK.

The "ARTRAIN Schedule" will be: Thursday, June 20, "Garden Day", 10 a.m.-2 p.m. and 5-9 p.m.; Friday, June 21, "Crafts Day", 10 a.m.-2 p.m. and 5-9 p.m.; Saturday, June 22, "Children's Day", 10 a.m.-6 p.m.; Sunday, June 23, "Church Day", 1-9 p.m.; Monday, June 24, "Antique Day", 10 a.m.-6 p.m.

All ARTRAIN activities are being offered through the efforts of the Greater Gulf Coast Arts Council to the general public, free of charge. Come to the old L and N Depot in downtown Gulfport and view this trainload of extraordinary original works of art and the station full of supplemental art attractions.

State Farm person to person health insurance

It can make you feel better.

At State Farm, person to person health insurance reviews that old-fashion idea of personal attention. Yet it helps protect against today's soaring medical costs. It can even make sure you get money to help meet those extra hospital expenses. Or an income if you're disabled. Let me show you how.

Long Beach council backs service

by Bob Innes

The Long Beach City Council last week unanimously endorsed the Mobile Medic Ambulance Service for West Harrison and Hancock Counties.

The motion followed a brief presentation of the service's functions by organization secretary-treasurer Burt Patterson.

Patterson pointed out that the membership drive for subscription to the ambulance service began June 3 and will continue until July 15. Alderman J. E. Moran commented that the service is just what Harrison County needs.

In other business the board opened three bids on an addition to city hall to be used for water work offices. Those received were Jefferson

Construction and Demolishing Co. of Long Beach, \$27,500; W. E. Smallwood of Gulfport, \$29,600; and J.W. Puckett and Company, \$38,200.

In a recessed session the mayor and board deferred action until a later date. They then called a special session that same week and awarded the bid to W. E. Smallwood.

Specifications for the addition are 30 feet by 60 feet and calls for completion within 120 days, weather permitting.

The Board accepted one bid from Bubba Oustalet Ford Company of Gulfport at \$7,795 for a utility van to be used by the Fire Department. Bids on miscellaneous van equipment will be opened at a July 2 meeting.

Appointments to the Long Beach Senior Citizens' Executive Committee were

also accepted. New Board members include Sam Lauderdale, Harold Tinnell, Ethel Marshall, Ed Hankenson, J. D. Headrick, Marguerite Halem, Harry R. Allen, Leroy Nettles, Joe Taylor, Jeulett M. Clanton, Gordon L. Blair and Delphine Spayde.

The board recognized Mrs. Mildred Harrelson of Orange

Grove and presented her with a certificate of appreciation for her original painting of Friendship Oak on the Gulf Park Campus. The painting will hang behind the council table.

Finally, the board voted to place a \$100 ad in the *Mississippi* program book and purchased a \$95 ad in the city directory.

Chamber endorses firm

by Bob Innes

At a recent monthly meeting The Long Beach Chamber of Commerce endorsed Mobile-Medic Ambulance Service, Inc., a public emergency service now forming on the Gulf Coast.

Special guest speaker was Doug Burgin of the ambulance service who outlined the functions of the firm and membership. Dues are \$15 per year for the entire family up to age 21 and the service allows members an unlimited number of transports. A membership drive began June 3 and is slated to close July 15. Membership applications can be picked up at the Chamber office.

In other business Dr. Max Edgington was elected secretary-treasurer to replace Ed Langton who moved to Hattiesburg.

The Chamber also announced that the Mississippi Research and Development Center is offering its services to clubs and groups during morning, noon or evening meetings. Services include planning-advisory services,

technical assistance, developing statistical data with regard to housing, population and manufacturing and tourism transportation and other sectors of the local economy.

Additional information concerning the service is available at the research and development center on the Gulf Park Campus of the University of Southern Mississippi in Long Beach, it was stated.

Dewey Hoda receives Ole Miss scholarship

Dewey Vincent Hoda of Kiln has been awarded a J. B. Anderson Scholarship at the University of Mississippi.

Dewey, son of Mr. and Mrs. Dewey V. Hoda Sr., graduated this spring from Saint

Civil exams given

The Long Beach Civil Service Commission will administer examinations for positions with the Long Beach Police and Fire Departments at 10 a.m. June 26 at the Long Beach City Hall.

Applications to take the test may be obtained from the city tax collector's office and will be accepted until 4 p.m., June 25.

Bids received for surplus school items

The Pass Christian School board opened bids for surplus school equipment stored in the district storage building on the Pass High campus.

Items for sale included automotive and athletic equipment, uniforms, band costumes, typewriters, chairs, desks, kitchen equipment, used tires and kitchen sinks.

Superintendent Leroy Lizana said many of the items are in excellent condition and the public was invited to participate in submitting sealed bids.

Stanislaus School in Bay St. Louis. He plans to major in dentistry.

The James Buford Anderson Memorial Scholarship was established in 1954 by the late Mrs. Anderson of Sumner in memory of her husband, a former student of Ole Miss. Eligibility for this scholarship is based on scholarship, leadership and need with emphasis on proficiency in English. Consideration is given to entering freshmen or transfer students who are Mississippi residents. The scholarship is automatically renewable on a semester to semester basis for eight consecutive semesters, if the recipient maintains a required grade point average and is a full-time student.

While in high school, Dewey was selected Most Valuable Player in football and track; was a member of Religious Life Study Group; was on the Beta Honor Roll; served as treasurer of the Student Council.

The J. B. Anderson Scholarship is one of more than 150 scholarships, ranging from \$200 to \$1,000 per academic year, awarded Ole Miss students.

DEATHS

MRS. MARTHA DAVIS GRIFFIN

Mrs. Martha Elizabeth Davis Griffin, 85, mother of Second Judicial District Court Judge J. Ruble Griffin, of Bay St. Louis, died at 6:15 p.m. Friday, June 7, at Floy Dyer Nursing Home, Houston, Miss.

A native of Webster County, Mrs. Griffin was a life-long resident of Mantee. Survivors, in addition to Judge Griffin, are three sons, Robert D. Griffin, Eupora; Wilburn Griffin, Jackson, and Howard Griffin, Mantee; two sisters, Mrs. Lillie Seay, Memphis, Tenn.; Miss Mallie Davis, Mantee; seven grandchildren and two great-grandchildren.

Funeral services were held at 2 p.m. Sunday at Mantee Baptist Church. Interment was in Mt. Pleasant Cemetery.

AUGUST JEWEL KERTH JR.

August Jewel Kerth Jr., 62, of New Orleans and a summer resident of Waveland, died at 9 p.m. June 6 in New Orleans. He was the husband of Antoinette Seitz; father of Miss Patricia Ann Kerth; brother of Eugene F. Kerth and the late George Kerth and Mrs. Odie Babin and son of the late Ernestine Aucoin and August J. Kerth Sr.

Funeral services were held Saturday morning with a Requiem Mass at Jacob Schoen and Son, Inc., funeral chapel followed by interment in St. Patrick Cemetery.

MRS. GRETHEL M. PETERSON

Mrs. Grethel Marie Peterson, 52, died at 4 p.m. June 8 at Forrest General Hospital, Hattiesburg.

Born December 20, 1921, in Poplarville, she was the daughter of Mrs. Theodocia Harriel, Poplarville, and the late Daniel Harriel.

Survivors, in addition to her mother, are her husband Wallace J. Peterson, Perkinston; a son Dwight Peterson; four daughters, Mrs. Danny Sue Ladner, Mrs. Laurie Dedaux, Miss Robin Peterson, all of Perkinston, and Mrs. Joy Lynn Ainsworth, Bay St. Louis; and a brother, W. C. Harriel, Poplarville.

Funeral services were held at 2 p.m. Monday at Crane Creek Baptist Church with the Rev. Ricky Moore officiating. Interment was in Steep Hollow Cemetery.

McDonald Funeral Home was in charge of arrangements.

Catherine Passailaigue is Miss Long Beach 1974

by Bob Innes
A 1974 graduate of Long Beach High School, Miss Catherine Passailaigue, daughter of Mr. and Mrs. John J. Passailaigue was crowned Miss Long Beach 1974 at the annual pageant Saturday

night in the Gulf Park auditorium. She will be Long Beach's entry in the Miss Mississippi Pageant in Vicksburg in August.

Miss Lori Lynn Viger was named first runner up and

also captured the title of Miss Congeniality. She is the daughter of Mr. and Mrs. John W. Viger.

Second runner up was Miss Helen Dauro, daughter of Mr. and Mrs. Vincent Dauro; third runner up was Miss Karen Lynn Meek, the daughter of Mr. and Mrs. George C. Meek and fourth runner up was Miss Carolyn Ann Reeves. Her parents are Mr. and Mrs. Thomas L. Reeves. Miss Reeves also received the talent award for her saxophone solo.

Judging the pageant were Dr. and Mrs. Bill Foster of Starkville and Jean Coppenbarger of Jackson. Dr. Foster is dean of student services and professor of student personnel at Mississippi State University. Dr. Foster served as director of the Miss Mississippi pageant for six years. His wife has worked and judged numerous Miss America preliminary pageants during the past ten years. Mrs. Coppenbarger is assistant director of public relations for conventions-tourism for the city of Jackson. She has been executive director of the Miss Southern pageant and has served as a judge for various Miss America preliminaries.

Mrs. Robbie Robertson Pinkerton served as the mistress of ceremonies and also presented a comedy skit. Entertainment for the pageant was by Miss Kathy

Coole, the 1973 Miss Mississippi. She presented a medley of popular songs. Mr. Gerald O'Neill, Long Beach High band director and the 1974 Mississippi Superior Jazz Ensemble was the guest band.

After final phases of talent and swimsuit competition, Miss Marcia Randall, the 1973 Miss Long Beach crowned Miss Passailaigue.

Scianna chosen

Paul Scianna, son of Mr. and Mrs. Charles C. Scianna Sr., 212 Felicity St., Bay St. Louis, was one of two representatives chosen by colleagues at Boys State last week to attend the American Legion sponsored Boys Nation at American University in Washington, D.C. July 18-25.

Scianna and Gregg Jones of Starkville, who were elected lieutenant governor and governor respectively of Boys State, will now represent Mississippi at the capitol convocation.

Where Boys State focused attention on the workings of state and local governments, Boys Nation will guide boys in the concepts and practical functions of government on a national level.

Each boy attends the national convention as a senator. A President, Vice-President, and president pro tem are elected by the boys to preside over the session.

Featured during the week stay for the Mississippi delegation tours of the capitol city and a banquet with Mississippi U.S. Senators James O. Eastland and John C. Stennis.

A senior at Bay High School, Scianna was Junior vice president of the Student

PAUL SCIANNA

Council, news editor of the school newspaper, and chosen president of his senior class for 1975. He is also a senior student council representative.

Scianna was sponsored locally by Bay St. Louis American Legion Post 139 during the Boys State session. The state chapter will sponsor the two Mississippi youths to Boys Nation.

UNITED STATES COAL

The United States has some two-thirds of the free world's known reserves of coal, a May Reader's Digest article reports. At current rates of consumption, America's 3.2 trillion tons of coal reserves are enough to last for centuries. Most of the coal lies in eight states: Utah, Arizona, New Mexico, Colorado, the Dakotas, Wyoming and Montana.

Auxiliary aids cancer research

The Ladies Auxiliary to V.F.W. Post 5931 of Pass Christian sold "gosssett" sofa pillows in front of the Hancock Bank Friday. The pillows were sold for Cancer Aid and Research, a special V.F.W. Auxiliary project throughout the state.

Odie Lee of Monroe, La. is this year's national research president gave the program first on the list of projects to be accomplished.

At this point statistics show that Mississippi is leading the nation in this program.

The Pass Christian Auxiliary is participating for the cause and members are hoping for a third sale in July.

Research chairman Edna Szymanski says persons wishing to place advance orders for the next sale may call Mrs. Patricia Necaise at 462-4965 or Mrs. Inez Bourdin at 462-2661.

Back in the hills

If everyone in Hancock County who voted against the school bond issue had been made to spend a week in Hancock North Central; been made to stand in a mile long line to get into a crammed, smelly lunchroom; stand at 6:30 every pre-dawn morning in an icy, drizzling rain waiting for the school bus; been made to submit to a few other distasteful but to the children, routine experiences, the school bond issue would have passed - 100 percent.

Instead, students in the south part of the county don't get a new high school; Gulfview and Charles B. Murphy Elementary children don't get additional and desperately needed classrooms and better lunchrooms.

Because of the selfishness and ignorance of a relatively small section of county voters, the school bond issue failed by 20 votes.

Individual precinct figures pinpointed the defeat to three locations, two of them overwhelmingly. One hundred and five voters in Kiln, 39 in Catahoula and 60 in Fenton killed the school bond.

There is absolutely no excuse for such behavior. Except that, quite obviously, those three communities don't care a hoot about the children. Theirs or anyone else's. We seriously doubt that those 144 combined voters would ever treat their farm animals like the children at HNC have, through circumstances beyond their control, had to suffer through to get an education.

Mr. Colling, in his editorial column last week, made note of the historical fact that the hills back from the Mississippi coast have been inhabited for more than 10,000 years. Well, last week's bond issue sort of proves that the residents "back in the hills" of Hancock county haven't progressed much from those earliest settlers.

Colling's Corner

By E.S. Colling

While we were laid up a few weeks ago, we had plenty of time to ruminate on some of the offerings of The Tube. For instance, the number of credits given on some programs.

On one stupid quiz show, credits were given to 31 people, some of them so ridiculously unimportant it was a shame to waste the space and time of putting them on the screen. Other programs were almost the equal of this bloomer: on one, credit was given for "music supervision" and on another for "make-up co-ordination" - whatever that is.

We know that these screen credits are valued by the recipients. They are also valued by the producing companies, for they take the place of cash in the pay envelopes. They are also of value to you, the viewer, for the expense is charged to the station, which in turn charges it to the advertiser, who in turn adds it to the price of the goods he sells, which in turn is paid by YOU! So when you see a screen credit for "music supervision", you can bet that no matter how thin they slice it, you are the one who ultimately is paying the bill.

When we started working in

television thirty-four years ago, it was different. Then credits were allowed only to the producer, director and two or three of the leading performers. And only five minutes in an hour for commercial "messages". Those were indeed the good old days, when we paid ten dollars for the right to adapt famous books and plays, such as "Little Women" and "The Copperhead", for television. Today we pay more than that to the man in the studio who holds up the Applause sign!

In these days of rapidly soaring costs of things, when one's income drops steadily behind one's needs, it is amazing to see what some people waste their money on. Recently a neighbor invited us to listen to a new record album for which he had paid ten dollars, and another friend described with pride and delight a new electric hairbrush he had just bought - with money which might better have gone to his child's dentist.

Why do they do it? We think it is a matter of momentum: they are so used to the lush times of the past decade that they cannot adjust to the leaner times of today. It should be a year of good harvest for the loan sharks.

NEWS FROM SENATOR JAMES O. EASTLAND

Senator James O. Eastland (D-Miss.) has introduced a proposal to fund the completion of the Natchez Trace Parkway with money from the Highway Trust Fund.

Eastland introduced legislation Monday to allow \$210 million to be spent on scenic parkways throughout the nation.

"This bill allows the parkway to qualify for the Highway Trust Fund without becoming part of the Federal-Aid Highway System," said Senator Eastland. "This approach is similar to the method used to fund forest highways, public lands highways and other

roads that are more a national rather than a state concern.

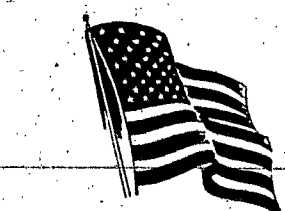

"I am hopeful this will allow the completion of the Natchez Trace Parkway in time for the Nation's Bicentennial Celebration in 1976."

Senator Eastland's bill will allow the expenditure of \$60 million in federal funds for parkways in this fiscal year, with \$75 million to be spent in each of the next two fiscal years. The Natchez Trace now has 121 miles of parkway yet to be completed at an estimated cost of \$81 million.

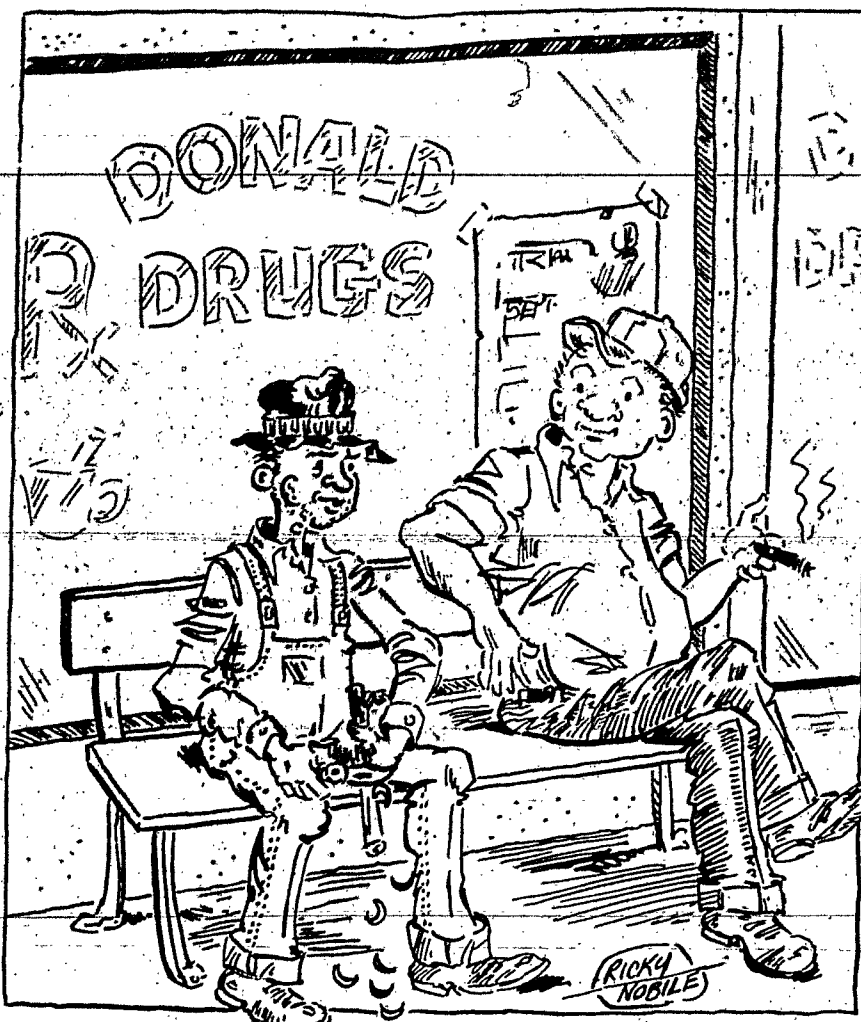

"The National Park Service has been requesting funds to complete the Trace since 1938. Funds for the project have been authorized and appropriated but emergency situations have curtailed the funds to the point where money from some other source is needed to complete the Parkway," said Senator Eastland. "This proposal has the support of Secretary of the Interior Rogers Morton and the National Park Service."

"When the Parkway is completed, people can travel from Nashville to Natchez through one of the most beautiful and historic areas of the United States," said Eastland.

"The completion of the 445 mile parkway has been the goal of countless Mississippians for 36 years. Now, that goal is in sight. The completion of the Parkway in time for the 200th Anniversary of our Nation will be of great historical significance."

**JUNE

FLAG
DAY**

"All these politicians gonna do so much for the working man, mebbe one of 'em can get all that water out of my fields!"

Our Readers Write

Ed Note: The following letter is reprinted in Letters to the Editor at the writer's request:

Hancock County
Board of Supervisors
Bay St. Louis, Miss.
Gentlemen:

I read, with astonishment, that you have refused to honor a State Board of Health request that you post signs on Hancock County beaches stating that the water is unsafe for bathing. Unbelievable!

Board President A. A. Kellar's statement in rationalizing the failure of the Board to post such notices for the public welfare is an admission of public irresponsibility on the part of elected officials. He is quoted as stating that "if we post signs like that we can kiss the beach goodbye." His reasoning, and those of you that voted with him, is evidently that tourist dollars are more important than the health of not only the tourists but also more important than the health of local residents.

This citizen feels strongly that your lack of action in posting notices stating that the State Board of Health has found our water unsafe for swimming is illogical, self-serving, unethical, dangerous and immoral. You have facts in front of you that affect the health of the public. You failed to act on these facts to protect the health of the public.

Frankly, gentlemen, you should be ashamed of yourselves. Ashamed as you have made the honest citizens of Hancock County feel when you knowingly endanger the public health for the questionable almighty dollar. Mayor Carver of Bay St. Louis has earned the respect of his constituents by courageously proposing that the notices be posted. I don't believe you have earned the respect of anyone.

By the way, do you allow your children to swim at our beach?

Sincerely,
Vernon D. Niven
Bay St. Louis

Gentlemen:
The weeping and wailing and gnashing of teeth that have followed the recent elections is pitiable in the extreme. A bond issue for the desperately needed improvement of schools was lost by a ridiculous margin of votes. And the beat supervisors are sitting back with their feet on the desk, picking their teeth and laughing heartily.

A few votes, aye?
It took me and a neighbor one hour and fifteen minutes to find the place to voice our Constitution given right after two wrong sets of directions and the contemptuous suggestion that we "don't bother." If we hadn't been filled with burning zeal we would have followed that advice. Others of our acquaintance took it.

So I ask you: Was there a list of polling places and their locations in the public prints? NO. Was the polling place marked? NO. Were there signs to direct voters, was there a motor corps to take old people? NO. Was the American Flag flown? NO. Did the beat supervisor visit the place to hear legitimate complaints? NO.

So it is no sequel that the people of Kiln, etc. voted down a bond issue that might help the City and the two helpless men running for office felt as if they had been hit with a fire hose.

There is a campaign on to get people

to register. When will the beat supervisors make it possible for them to to vote?

Yours very truly
Elise Beauchamp
Bay St. Louis

ED NOTE: The Echo did list polling places and poll managers but did neglect to list locations or addresses. We stand rebuked and promise to do better next time. Hopefully so will party committeemen, poll workers and the circuit clerk's office - don't hold your breath for the supervisors.

Gentlemen:
As a visitor to Bay St. Louis I have found much to be enchanted with and something that is sending me away with the chills of horror still rippling my spine.

In heavens name what maniac... in the name of medicine, can condemn a woman to your so-called Rest Home?

What creature can be so deprived of pity as to let some poor, helpless soul lie screaming in the night, begging for help, for pity, for rescue from rats and other horrors?

I have heard it in the day, in the night. The endless, monotonous pleading for rescue. My friends have heard it and their neighbors have heard it. Questions bring only denial of such an inmate. In the name of God, won't somebody do something?

Sincerely,
Mary Stuart
Bay St. Louis

The Editor:
Disnay and anger prompt me into writing, and I beg that you see fit to publish this verbatim.

The June 5 edition of the Daily Herald carried a statement attributed to "The Honorable Trent Lott, that it was not only legal but also justifiable that he accepted \$2,500 "campaign fund" from a milk industry co-op.

Backed up by nearly a half century of experience in the milk industry from raising the cow to selling the milk, I feel well qualified in bringing a few bare, and mostly forgotten facts to the attention of the milk drinking public.

After having bought 100 good milk cows for \$35; after having bought cow feed for \$15 a ton; gas for 15 cents a gallon; after having used a \$25 unrefrigerated Model T for a milk truck; after having sold milk for 20 cents a gallon—NO—no sales tax: Profit? YES—very little, but "CLEAN"—untouched by unscrupulous hypocritical politicians; I'VE HAD IT.

Unfortunately at that time a lot of the milk was dirty.

Let's skip time until the early 40's when the health department stepped in to CLEAN; to upgrade the quality of milk; the first thing they did was put all us raw milk dealers out of business.

Even tho I was the largest raw milk dealer in Pass Christian at the time and even tho I was forced out of the raw milk business, I will be the first to admit that the health department kept on coming up with and enforcing new health standards, and today people are getting a much better quality of milk than they got back in the "good old days", even tho most of the "old timers" still don't agree.

Let's move up a few more years in history.

County Agent's Notes

John W. Smith, County Agent

JUNE IS DAIRY MONTH
June has been designated as "Dairy Month" throughout the entire United States. This year marks the 38th anniversary for the month long activity. This promotion has gained momentum through the years and provides an excellent opportunity to explore the trends in our Mississippi Dairy Industry.

The importance of the dairy industry to our State of Mississippi should not be minimized. In addition to supplying nature's most nearly perfect food, the dairy industry adds an estimated \$200 million to the state's economy annually.

The dairy industry consists of a vast network of producers; processors, distributors, wholesale and retail sales outlets, and many other segments necessary to provide pure, clean, wholesome milk to consumers each day. The transportation of raw milk, processed milk, and processed milk products supplies still another vital service to consumers. This list could go on and on, but perhaps it would be sufficient to say that there are many segments of dairy industry, each one playing a necessary role, that go to make up the total dairy marketing system.

There are about 2,000 dairy farmers that provide the basic input into the marketing process—milk. Farmers produce milk under a host of sanitary regulations in an effort to insure the

basic supply to be the very highest quality. Dairy farmers must milk the cows at least twice a day every day of the year. The dairy farmer has a tremendous investment in his resources, which include land, equipment, cows and many other items.

Long gone are the days when dairy farmers just milked cows. His system of marketing has advanced to the point where he must become knowledgeable in many areas. Federal milk marketing orders have demanded that the dairy farmer must know the basic fundamentals of milk marketing. The basic fundamentals include some economics, law and other disciplines.

Although the total number of dairy farmers has declined, the total amount of milk marketed has increased at a substantial rate. An analysis of this trend denotes some interesting facts.

The first obvious fact is that dairy farmers are becoming more efficient. This is documented by the significant gains that have been made in the amount of milk produced per cow. In 1973 this amount set an all time record high as production per cow amounted to 6,738 pounds or a little over 3,100 quarts.

Then too, to take advantage of any economies offered through volume in an effort to lower the unit cost of production, herd sizes are becoming larger. This is particularly true in Grade A herds.

To place a public marina with attendant concessions by the Amer. Legion pier would sacrifice the living beauty of a residential area enjoyed for generations by this community. Thought of in proper perspective, no town would ruin its most valuable asset and tourist attraction, the few remaining century-old homes, beautifully picturing an historical era long gone. If ONE such section and surroundings could be destroyed, for any reason, others would follow. And what would be left? Once lost—FOREVER lost. This we MUST remember!

Consider the beautiful home of the Robert Akers, built in 1786, solid walls, 14 inches thick, of handmade bricks, still withstanding "Sept. Storms". Its tree shaded, long upper gallery is still a haven from summer's heat, cooled by faithful southern breezes, gentle as a whisper, whimsical as song—a source of admiration for all who pass.

And the picturesque old Swoop home with wrought iron railings, broad galleries, and setting of great live oaks. Countless citizens for years have enjoyed its matchless beauty.

And what is more unique than the old Model home, displayed at Louisiana's Exposition—in the 1890's; bought, dismantled, and brought by barges to the Bay?

The Bay Waveland Garden Club, with years of beautification, featured these homes on various Spring Pilgrimages drawing many people. Can we do less than preserve this beautiful heritage? "See America's Riviera, the BEAUTIFUL Gulf Coast", I once saw advertised. People COME to see the BEAUTIFUL, especially preserving the history of a by-gone era. In thirty years of transfers in the U.S.P.H.S. my husband and I never failed to stop and see, in various towns, the ancient streets and buildings of their beginnings, for historical interest. These are OUR assets.

The Marina's APPROPRIATE place is in a COMMERCIAL zone, filling genuine needs—where nothing lovely is lost.

These are grand old homes of magnificent structures that even withstood Camille. Let's gratefully continue to preserve the good and the inspiration they bring to our community.

Four named to Pass Hi Hall of Fame

The 1974 Hall of Fame at Pass Christian High School consists of Judy Niolet, Donna Sellier, Marilyn Dedaux and Debra Chipman.

Judy Ann Niolet is the daughter of Mr. and Mrs. Herman Niolet, Rt. 1, Box 57, Pass Christian. Judy has an overall four year average of "A" and has earned 20% credits. Awards and honors received were Valedictorian of graduating class, Art I Award, Algebra I Award, Student Council Sec., Library Club Sec., Junior High Basketball Player, "P" Club Treas., Homeroom Treas., English II Award, Geometry Award, Home Ec. II Award.

Anybody for bridge?

USM - Gulf Park will offer Beginning and Intermediate Bridge in its Special Interest Courses starting June 17. Beginning bridge will begin Monday night, June 17, and Intermediate bridge will begin Wednesday night, June 19.

Beginning bridge will include the basic elements, suit and suit values, rules, point counting, bidding, and the play of the hand. Intermediate bridge is designed for those who have completed the introductory course in bridge or those who have played some bridge but desire to improve their game. Emphasis will be placed on improving the technique of each individual.

Mrs. Genne Winter, grand master, will be the instructor of both courses. For further information, contact Louis Elias, Jr., Department of Community Services and Programs, USM - Gulf Park, 864-2155.

American History Award, English IV Award, Algebra II Award, Chemistry Award, Home Ec. III Award, French I Award, American Government Award, American Legion Award, Senior High Basketball Player, Best Overall English Award, Best Overall Science Award, Home Economics Award, Beta Club.

Miss Sellier is the daughter of Mr. and Mrs. Harold Sellier, Rt. 2, Box 766, Pass Christian. Donna has an overall four year average of "A" and has earned 20% credits. Awards and honors received were Salutatorian of graduating class, Miss. History Award, Civics Award, P. E. Award, English III Award, Shorthand I Award, Outstanding High School Student, Secretarial Training Award, Bookkeeping Award, Overall Business Education Award, Kalif Memorial Award, Beta Club.

Miss Dedaux is the daughter of Mr. and Mrs. Odell Dedaux, Rt. 2, Box 748, Pass Christian. Awards and honors received were Who's Who Among American High School Students, Outstanding High School Student, National High School Student, General Biology Award, Danforth Award, Safety Council, Library Club, Afro-American Club, Beta Club, Student Council Pres., and honor student.

Miss Chipman is the daughter of Mr. and Mrs. Arnold Chipman, 1550 East Second Street, Pass Christian. Awards and honors received were honor student, Beta Club, Drama Club, Band, Flag Corps, Society of Outstanding American High School Students, National High School Award for Excellence.

Golden Jubilee

Members of the St. Stanislaus class of 1924 were recently honored on the Golden Jubilee anniversary of their graduation at a banquet and received commemorative diplomas at the 120th commencement exercises of the school. Class members attending are, standing from left: George Cleveland, Henry Gossen, Roland Hymel, Alden Mauffray, Wilfred Meridier, Eugene Guedry, Milton LaPorte, Nicolas Pettigean, and Adrian Landry. Seated are wives of deceased members of the Class of 1924, from left, Mrs. Christine Renshaw Mougner, Mrs. Irene Hille, Mrs. Thelma Kergoslen and Mrs. Jo Gex DeBever.

'Expect some scars' says lion trainer

"Scars are an occupational hazard of wild animal trainers," says Wolfgang Holzmaier, a man who should know.

Internationally famous as "The Lord of the Lions," Holzmaier and his jungle-bred charges appear in the giant cage in the splendidly spectacular 103rd edition of Ringling Bros. and Barnum & Bailey Circus, set to arrive in

Jackson for performances in the Mississippi Coliseum June 18th and 19th.

Holzmaier's arms, legs and upper torso are covered with scars. He considers them "badges of courage" and testament to his 20 years of working with wild animals. "No matter how careful you are, every now and then you get yourself a scratch," Holzmaier says. Entering a cage full of lions is always a dangerous proposition. The lions are not fed until after the performance, and it's a hungry, snarling group that Holzmaier must face and control.

His most serious injury occurred five years ago when he was starring with the famous Circus Amar in Paris. One of the lions took a swipe at his arm which then required 25 stitches to close the wound.

The German-born trainer reports that he begins training cubs when they are from 10 to 12 months old.

"When they are that age they start to change," he explains. "I work with them in training sessions for about a year. If they don't respond by the time they are two years old, I give them to a zoo or animal farm."

The 37-year-old trainer has been around circuses for 25 years, beginning as a groom and feeder in a German circus. He then trained horses in a Paris show for five years before becoming interested in the big cats.

"I was helping a trainer in Paris when one day he just walked out," Holzmaier remembers. "The owners asked if I could do the act and I said I could, and did. After that I bought five lions and five tigers and put together my own act."

"The longer I worked with the animals, the more attraction I had for the lions. I guess I like the toughness and harshness of them better than the smooth sleek movements of the tigers," he added.

"They're both dangerous animals and you must really know your business to work with them," he says, "but the lion is a fighter who'll jump right at you - face to face. The tiger prefers to attack from the back."

Holzmaier is enjoying his American tour with the Greatest Show on Earth. "I wish I could see more of this country," he laughs, "but my work doesn't allow it. Trainers must be dedicated people and your animals are your life. In fact, I haven't been able to take a vacation since I joined the circus 25 years ago!"

Tickets to 103rd Edition of the Greatest Show on Earth may be purchased at the Coliseum Box Office or ordered from Ringling Bros. and Barnum & Bailey Circus, P.O. Box 892, Jackson, Mississippi 39205. All seats are reserved and ticket prices are \$3.50, \$4.50 and \$5.50. Tickets to the matinee performances for

children under 12 years of age are \$1 less than regular price.

New DeLisle principal is Hancock County native

by Bob Innes

Hancock County native Charles Powell has been named principal of the DeLisle Elementary School for the 1974-75 school year, according to Leroy Lizana, superintendent of the Pass Christian Municipal Separate School District. Powell will assume his duties in August.

Powell replaces Mrs. Undine Thomas who retired after 32 years of school service.

Reared in the Caesar Community, Powell comes to the school district with a combined total of 20 years

teaching and administrative experience.

His qualifications include a Bachelor of Education degree from the University of Southern Mississippi and a M. Ed degree in administration and supervision from the University of Houston in 1960. Powell graduated from Carriere High and Jones County Junior College.

Powell began his teaching career in Lucedale in 1949. After a two year stint there he joined the Air Force. Following his discharge Powell accepted a teaching position at Carriere High for three years, then moved to Texas and taught in the Pasadena school district for two years.

In 1960 Powell joined the Picayune School system as a sixth grade teacher and was later appointed principal of the junior high school.

After three years in that position Powell became supervising principal for the five elementary schools of Picayune.

Powell is a past president of the Picayune Education Association and of the Picayune Lions Club.

From Picayune Powell assumed the position of supervisor, instructional services at the Vocational Rehabilitation Center for the Blind at the University of Mississippi Medical Center in Jackson.

In July 1972 he accepted a position as principal of Terry Academy and held that position until the recent appointment to the Pass Christian School System.

Powell is the father of six children ranging in age from 8 to 17. His wife and family will arrive in Pass Christian in July.

Ramada under new owners

The Ramada Inn on Highway 90 in Waveland is now under new management and is soon to be called Brady's Ramada Inn, according to owner-operator Otto Brady.

Although they have just returned to Bay-Waveland from Miami, Fla. after an absence of some years, the Bradys are not new to the area. The couple met during World War II days when he was an officer-in-training at the U. S. Coast Guard Academy at Henderson Point and she was a student at Gulf Park College in Long Beach.

Paceco is looking for a few good fitters like "Rev" Ladner

Reverend "Rev" Ladner is the father of four children and was born, raised and lives in Pass Christian. Rev says: "I thought about commuting to a larger plant when I came to PACECO - but I'm glad I just thought about it. I like it at PACECO, the pay is good, you get paid insurance, a savings plan, steady work and you don't start here as a welder, but watched over to fitting. I'll stay at PACECO as long as they've got the work - and as far as I know, they've got plenty."

PACECO is looking for a few good fitters like "Rev" Ladner. If you're interested in working close to home in clean, safe surroundings, call A. S. King, 896-1012. ON THE HARRISON COUNTY SEAWAY - JUST OFF COWAN ROAD.

SUBSTITUTED TRUSTEE'S NOTICE OF SALE

Whereas, on the 12th day of May,
1971, Robert M. Seago, Jr. executed a
Deed of Trust to Nicholas M. Haas,
Trustee for The Terre, Incorporated,
which Deed of Trust is recorded in
Volume 155, Pages 232-234 of the record
of Mortgages and Deeds of Trust on
land in Hancock County, Mississippi,
and

Whereas, the said Deed of Trust and
the indebtedness secured thereby were
assigned to Florence Mitchell, by in-
strument dated November 22, 1971 and
recorded in Volume 155, Pages 136-137
of the record of Mortgages and Deeds of
Trust on land in Hancock County, Mississippi,
and

Whereas, in conformity with the
rights, powers and authority granted in
said Deed of Trust, Florence Mitchell,
the holder of said Note and Deed of
Trust, substituted Bonnelle P. Ladner
as Trustee therein by instrument dated
May 27, 1974 and recorded in Volume
180, Pages 152-153 of the record of
Mortgages and Deeds of Trust on land
in Hancock County, Mississippi, and
Whereas, default having been made
in the payment of the indebtedness
secured by the said Deed of Trust and
the holder having requested and
directed the undersigned Substituted
Trustee to do so, will on the 21st day
of June, 1974, offer for sale at public
auction and sell during legal hours,
between 11:00 A.M. and 4:00 P.
M., at the Main Front Door of the
County Courthouse for Hancock County,
Mississippi, in Bay Saint Louis,
Mississippi, for cash, to the highest and
best bidder, the following described
land situated in Hancock County,
Mississippi, to-wit:

Commencing at the NW Corner
of Section 7, Township 7 South, Range 14
West, thence South 530 feet; thence
East to the Center of Bayou Le Terre to
a point set as the place of beginning;
thence West 1320 feet; thence North 330
feet; thence South 1300 feet, more or
less, to the Center of Bayou Le Terre;
thence Southerly along the meanderings
of the Center of Bayou Le Terre 330
feet, more or less to the place of
beginning. Said land containing Ten
(10) Acres, more or less, and being part
of the North (1/4) Half of the NW 1/4,
Section 9, Township 7 South, Range 14
West, Hancock County, Mississippi.

ALSO: That Certain R.O.W. granted to
the Grantor herein 50 feet wide from
the above described land to the Public
Road particularly described in Deed
from Le Terre, Incorporated to the
Grantor herein of even date.

I will convey only such title as is
vested in me as Substituted Trustee.
WITNESS my signature, this the
21st day of May, A. D., 1974.

BONNELLE P. LADNER

5-30, 6-6, 6-13, 6-20-74

6-13-14chg.

NOTICE OF SALE
WHEREAS, the United States of
America, acting by and through the
Farmers Home Administration, United
States Department of Agriculture, is
the owner and holder of the following
real estate deed of trust, securing an
indebtedness therein mentioned and
described located in Hancock County,
Mississippi, said deed of trust being
filed in the office of the Clerk of the
County and in for said County and
State: GRANTORS-Frank Jones and
Lula Mae Jones; DATE
EXECUTED-June 23, 1971; TRUST
DEED-BOOK-151; PAGE-214.

GRANTORS-Frank Jones and
Lula Mae Jones; DATE EXECUTED April
28, 1972; TRUST DEED-BOOK-169;
PAGE-476.

WHEREAS, default has occurred in
the payment of the indebtedness
secured by said deeds of trust, and the
United States of America, as
Beneficiary, has authorized and in-
structed me as Substituted Trustee, to
foreclose said deeds of trust by ad-
vertisement and sale at public auction
in accordance with the statutes made
and provided therefor.

THEREFORE, notice is hereby given
that pursuant to the power of sale
contained in said deeds of trust and in
accordance with the statutes made and
provided therefor, the said deeds of
trust will be foreclosed and the property
covered thereby and hereinafter
described will be sold at public auction
at the front door of the county
courthouse in the town of Bay St. Louis,
Mississippi, in the aforesaid County at
eleven o'clock A.M. on the 17th day of
June, 1974, to satisfy the indebtedness
now due under said secured by said
deeds of trust.

The premises to be sold are described as:
Lots 37, 38, 59, and 60, Block 56,
Carver's Paradise Resort Subdivision,
containing portions of Blocks 7, 10,
11, 12, 24, 37, 47, 50, 56, 66, and part of
Blocks 1, 2, 5, 6, 8, 13, 19, 41, and 48,
Riverside Addition, L.L. "Doc" Tamm,
Jr., Developer, located in Section 16 of the
Isaac Graves Claim in Section 19,
Township 9 South, Range 16 West,
Hancock County, Mississippi. Subject
to Prior reservations of oil, gas and
minerals (as to Lots 37 and 38); and
prior reservation of one-half of all oil,
gas and minerals (as to Lots 59 and 60).

history, first aid, marksmanship, uniform regulations and hand-to-hand combat.

Dr. Wolfe is highly admired and respected by his colleagues, not only for his skill as a physician, but because of his dedication to his patients. Possessed of a sharp mind and a keen sense of humor, he has at all times the courage of his convictions. The confidence he inspires in others has earned him the love and loyalty which he receives from the thousands of his patients, their families, and especially to his colleagues in the medical profession to whom he has been an inspiration in perseverance and integrity. He epitomizes those qualities which once made the vocation of a country doctor one of the most respected and esteemed of this nation.

New Mormon Temple open for public tours

Schedules for public viewing and dedicatory services of the majestic new Washington, D.C., Temple of The Church of Jesus Christ of Latter-day Saints were announced by the First Presidency of the church.

Free public tours of the temple will be conducted from Tuesday, September 17, to Saturday, October 19. A week of special tours by invitation only is scheduled September 2-14, for representatives of national, state, and local governments; other religions; educational and business institutions; and the news media.

After the dedication of the temple, as with all Mormon temples, only worthy church members will be allowed to enter and participate in sacred ceremonies which emphasize the importance, sanctity, and eternal nature of the individual and the family. Thus, the free public tours of the temple before its dedication will provide a unique opportunity for those not of the Mormon faith to view the interior of a Mormon temple.

The six-spined Washington

temple, sheathed in 175,000 square feet of Alabama white marble, rises above a wooded site of 57 acres at Kensington, Maryland, only 30 minutes drive from downtown Washington, D.C. It will be the sixteenth Mormon temple worldwide.

Dedicatory services are scheduled Monday through Thursday, November 18-21, and will be under the direction of church president Spencer W. Kimball, world leader of the church's 3.3 million members. These services will be open to church members in good standing only.

The completion and dedication of the Washington, D.C., Temple will be quite significant to local Mormons, according to President James Walden of the Bayou La Croix Branch (congregation). Although there are thousands of Mormon chapels and meetinghouses throughout the world, open to people of all faiths, the Washington Temple will be the first temple in the eastern United States where church members can participate in sacred ceremonies performed only in temples.

MEC to probe state colleges

The state's chamber of commerce is mapping plans for an in-depth study of Mississippi's system of higher learning during its 1974-75 business year.

According to Meridian superintendent of public schools, Dr. Clyde Muse, who chairs the Mississippi Economic Council's Education Committee, the Council will examine the state's system of higher education as one of four projects of the Education Committee this year.

Dr. Muse said that the committee study will include possible areas of duplication, enrollment, capital needs, and sources of revenue for the institutions of higher learning. "Colleges and universities in Mississippi -- and the nation as well -- are facing tremendous problems with rising costs, fluctuating

enrollments, and a host of other difficulties," Dr. Muse said. "The Education Committee will be attempting to pinpoint some of the problems facing the institutions and offer suggestions for their solution."

The Meridian educator said that the committee will also be working on other projects including supporting MEC recommendations for improving public education, and publicizing Council recommendations for improving the management of 16th Section lands.

Dr. Muse noted that the Education Committee will continue to administer the popular Student-Teacher Achievement Recognition program which honors Mississippi's outstanding students and teachers.

Parchman . . . (Continued from Page 2-A)

trolling board for the penitentiary.

FLAGRANT FAVORITISM

Other stories, uncovered by Reed when he arrived unexpectedly before records could be altered or destroyed, revealed even more startling instances of flagrant favoritism conferred by prison officials on certain inmates.

One graphic example was the record of a prisoner which showed "good time" (days taken off his sentence for each day worked) amounting to more than double the time he had spent at Parchman. In less than nine months he had acquired a year's worth of good time, but with no indication on his record of where he had worked or when.

"An amazing man," Reed said wryly, "he accomplished something that is physically and chronologically impossible."

By the end of 1973 Parchman was like a mammoth,

sprawling animal, lying on its side gasping for breath. It had been dealt so many blows, gouged, sliced and maimed by a series of predators that its survival was a major accomplishment.

Suddenly last fall wounds long concealed erupted and were laid open by federal court investigations. Cries and demands for instant reform went up and among the many voices heard, the loudest were from two legislators who had contributed the most to Parchman's destruction.

(Next week: Parchman becomes a political battleground and the most controversial issue of the 1974 legislative session. The fray moves to the capitol building where under the guise of "penal reform" the battle rages between opposing armies in the House and Senate. Back at Parchman, Reed cleans house and has a tiger by the tail.)

New MBA officers

R. Ben Lampton, left, of Jackson, was elected president of the Mississippi Bankers Association at that organization's convention at Pete Fountain's Buena Vista Hotel in Biloxi. Other new officers include, from left, W. E. Howard, Jr., Laurel, vice-president; Leo W. Seal, Jr., Gulfport, retiring president; and John Mitchell, Starkville, treasurer.

Traveling art exhibition brings cultural enrichment to Coast community

Bay St. Louis school students enjoyed a unique opportunity for cultural enrichment recently through the sponsorship of the Bay-Waveland Junior Auxiliary.

Ray Parish, Jr. brought a traveling exhibition of works by outstanding Mississippi artists as well as internationally recognized artists to the Bay for a week of lectures and demonstrations in fine art to students at St. Stanislaus and Bay High School.

The Traveling Lecture-Exhibition Program is under the auspices of the Mississippi Art Association and the Mississippi Arts Commission and provides an opportunity for Mississippians to view and

study original works of art in their own communities. Parish, who is educational director of the program, alternated classroom lecture-demonstrations between the two schools for a week. The exhibition consists of 25 to 30 works of art from the MAA collection in Jackson. The various works, chosen by Parish, represent a complete spectrum of media, styles and techniques. Students were shown oil, gesso and water color paintings, examples of metal sculpture, pottery and mixed-media works.

A potter-sculptor with a Bachelor of Fine Arts degree from the University of Mississippi, Parish delighted students with demonstrations of pottery making, from "throwing" the clay on the potter's wheel to firing and glazing the finished product. Classroom lectures on various artists' techniques, media and styles were an informative and well received part of the program.

An evening exhibition and reception for adults and interested students drew a crowd to the Bay High library. Parish, who has been educational director for the MAA program for two years, serves, in effect as guest lecturer, teacher consultant, art historian and critic in residence. Working out of a large van which contains everything necessary for the exhibit-demonstrations, Parish travels throughout the state, providing adults and students in many Mississippi communities their first, and often only, exposure to the world of fine art.

Help needed for reading program

Volunteer help is desperately needed for the summer reading assistance program sponsored by Friends of the Library in Bay St. Louis.

The project is designed to aid first- and second grade school children who are slow readers. No special training or talent is required and anyone, male or female of any age, may participate.

All schools in the area have been contacted and there is a long list of boys and girls needing this help. No teaching is involved; each volunteer devotes one hour to a child, listening to him read, correcting punctuation when necessary.

Some choose to have the child in their homes, while others prefer to use other facilities available such as the library, Civic Room at Gulf National Bank or St. Augustine Seminary. The time is settled between the volunteer and student, who will be introduced by Mrs. Ernest Douglas.

Each person offering to help is asked to donate at least one hour weekly, but may put in as many hours as are convenient. If you are interested please call Mrs. Douglas at 467-3228 or Mrs. Clarence Evans, Friends of the Library president, at 467-7304.

'Hello Dolly' is audience pleaser at Gulfport Little Theatre

by Bob Jones

A capacity crowd at the Gulfport Little Theatre last Saturday night sat under the spell of the theatre's production of the Broadway musical "Hello Dolly."

For those who are acquainted with the musical, the production was an exception in the town. Perhaps the reason was that the cast really communicated with the audience.

Barbara Salomon as Dolly was outstanding. Once again good stage presence and

the dancing and vocals lent to an overall good performance.

Amber Kemper played by Keith Morison and Brangard, Alison Tillman, gave excellent performances at two sweethearts whose marriage is shattered by Dolly.

Enough can't be said about the excellent singing and acting by Miss Salomon. Her stage voice was unquestionably superior for such a demanding part.

Rocky Morton as Minnie Jay was outstanding. Once again good stage presence and

complete ability led to a

refracting portrayal. Directed by Chuck White, and assistant Brenda Ober, we found "Dolly" one of the best productions of such a difficult musical performed on the Mississippi Gulf Coast.

Costumes, props, sets and lighting were on target for the production. Musical direction was under the capable hand of Peggy Swale.

With the musical running until Saturday, it's still not too late to catch the entertaining production by local talent.

Pre-nuptial party honors Miss Ladner

Pre-nuptial parties honoring Miss Judy Ladner, bride-elect of Terry Helms, started with a rice bag party given by her grandmother Mrs. Eunice Shaw at her home May 26. During the party guests made pastel net rice bags. Mrs. Shaw presented the honoree with a clothes hamper filled with household articles.

Mesdames Edward Robinson, Robert Gordon and Charles Cruthirds honored Miss Ladner with a miscellaneous shower May 31 at the Robinson home. Decorations were carried out in yellow and white. Corsages were presented the bride-elect, her mother

Mrs. Herman Ladner, her grandmother, Mrs. Shaw and the prospective groom's mother, Mrs. O. L. Helms. Games were played and prizes, kitchen gadgets, won by guests were given to the honoree.

Mrs. Elmer Parker Jr. and Mrs. Herman Ladner Jr. hosted a miscellaneous shower June 2 at Northwood Hills Catholic Church Parish Hall. A yellow and white color scheme was carried out in the decorations.

The hostesses presented Miss Ladner, her mother, grandmother and Mrs. Helms with carnation corsages.

ANNIVERSARY CELEBRANTS Mr. and Mrs. Nellus Favre cut a cake during a celebration of their 25th wedding anniversary in Bay St. Louis.

Prenuptial parties fete Miss Sallinger

Miss Janet Sallinger, bride-elect of Kelly McQueen, was honored recently at three pre-nuptial events.

On May 19 a surprise miscellaneous shower was given in the home of Mrs. Burton Fauchaux, 4521 Bissonet Drive, Metairie, La. Hostesses were Mrs. John McCarroll, Mrs. Charles Mooney, and Mrs. Fauchaux, all sisters of Mrs. Richard J. Sallinger, mother of the bride elect.

Various arrangements of

peonies, pom-pom chrysanthemums and greenery made up the yellow and white decoration scheme. The honoree was presented with a corsage of yellow sweetheart roses and her mother was given a pink cymbidium orchid.

Refreshments were served by tea girls, Misses Stacey and Valerie Stansbury, Dianne Fauchaux, cousins of the bride, and Fran Sallinger. A linen and lingerie shower

PC Elementary students present program at Homes

The three first grade classes at Pass Christian Elementary School recently presented a program at the Miramar and

Dixie White House convalescent homes. The Rhythm Band opened the program with three musical selections, followed by a play, Little Red Riding Hood. Four dances by another group of students was also part of the program.

The students were accompanied by their teachers, Miss Anna Looney, Mrs. Catherine McDonald, Miss Diane Peel and the music teacher Mrs. Mary Bowser.

Mr. and Mrs. Gary E. Heitzmann announce the birth of their first child, a son, Brett Edward at 7:24 a.m. June 10 at Providence Hospital, Mobile. He weighed seven pounds, one ounce.

Mrs. Heitzmann is the

former Ann Perkins, daughter of Mrs. R. T. Perkins, Bay St. Louis, and the late Mr. Perkins. Mr. and Mrs. Edward Heitzmann Jr., also of Bay St. Louis, are the paternal grandparents.

Mrs. Fillingame is the former

Sherry Dean, daughter of Harlan G. Dean Sr. of Pearlman and Mrs. Patsy Vallee, New Orleans. Paternal grandparents are Mr. and Mrs. James A. Fillingame, Bay St. Louis.

Vows renewed on 25th anniversary

Mr. and Mrs. Nellus A. Favre Sr., celebrated their 25th wedding anniversary Sunday, June 9, with renewal of their marriage vows at a 12:30 p.m. con-celebrated Mass at Our Lady of the Gulf Catholic Church.

Very Rev. Gregory Johnson, pastor, principal celebrant, was assisted by Rev. Daniel Gallagher and Rev. Michael Tracey, associate pastors, and Rev. Gerhard Vogel, SVD, St. Augustine Seminary. Their son, Edward Favre served as commentator.

Attendants were Mrs. Favre's sister, Mrs. William Irwin of Long Beach, Miss., and their son Nellus Jr. Mrs. Favre chose for the occasion an aqua and beige knit dress with white accessories. An orchid corsage completed her ensemble.

Mr. and Mrs. Favre, nee Ethel Ladner, were married June 11, 1949, in Our Lady of the Gulf Catholic Church. They have three sons, Nellus,

Edward and Michael and a daughter-in-law, the former Terri Ann Monti, who is married to their son Edward. Following the Mass a buffet

dinner, hosted by members of both families, was held at St. Augustine cafeteria.

Arrangements of English Ivy, silver fern and daisies decorated the tables. The cake table, overlaid with a linen cutwork cloth, was centered with an all white five-tiered wedding cake topped with the bride and groom arrangement used on their wedding cake. Candelabra holding white tapers were on either side. Guests included members of the families from the Bay St. Louis area, Gulf Coast, Mobile, Florida and Metairie, La.

The program will also be under the direction of the new assistant director, Mr. Don Kibbourn of Gulfport.

All students of the program will be given private and group instruction for their particular instrument. If any student has not received correspondence concerning his lesson by Saturday, June 15, please report to the band hall at 9 Monday morning.

The Bay-Waveland Municipal Separate School District instrumental music department, under the direction of Joe Cacibauda, will begin its summer program Monday, June 17 at 9 a.m.

Mr. and Mrs. Terrell Owen LaFontaine, Bay St. Louis, announce the arrival of their second child and first son, Terrell Owen II, May 29, at Gulfport Memorial Hospital. He weighed six pounds, nine ounces.

Mrs. LaFontaine is the former Laurin Anne Favre, daughter of Mrs. Lydia Monti, Favre, Bay St. Louis.

Paternal grandparents are Mr. and Mrs. Clifton Owen LaFontaine, Waveland; paternal great-grandparents Mr. and Mrs. Sidney LaFontaine and maternal great-grandmother, Mrs. A.G. Favre Sr., Bay St. Louis.

Hostesses for the event were Mrs. Colleen Buckley, Mrs. Margie McQueen, Mrs. Abi Johnston, Mrs. Lucille Pearson, Mrs. Elaine Prewett, Mrs. Kay Stockstill, Mrs. Sue Stewart, Mrs. Marie McQueen, Mrs. Gwen Walker and Mrs. Gladys Williams.

The honoree wore a black and white print dotted swiss floor length gown and was presented with a white gladiolus corsage.

Miss Sallinger and Mr. McQueen will be married Saturday, June 15, at Our Lady of the Gulf Church.

Homemakers attend Starkville meet

Mrs. Norine Barnes, Hancock County Home Extension Economist, Mrs. Ethel Breaux, President Hancock County Extension Homemakers Council, and Mrs. Fred Horn, secretary, have returned from a three-day meeting of the Mississippi Extension Homemakers Council at Mississippi State University, Starkville.

Mrs. Gladys Discon, vice president Edwardsville Extension Homemakers Club, won first place for her entry, a ceramic magnolia, in the Cultural Arts exhibit and Mrs. Jeanne Williams, Bay St. Louis Club, was awarded a third place certificate for her outstanding work as Hancock County Cultural Arts chairman. Mrs. Discon's entry will go to the International exhibit to be held in Illinois in August.

Mr. and Mrs. A.N. Grass had as guests last week their daughter Mrs. William A. Henry and children Geri, Patrick and Michelle of Brandon, Miss. They were joined over the weekend by Mr. Henry. Geri remained for a longer visit with her grandparents.

Also visiting in the Grass home were Mr. and Mrs. Charles Malaison of Gretna, La.

Mr. and Mrs. Grass celebrated their 37th wedding anniversary June 2.

MR. AND MRS. EDWARD FAVRE, the former Terri Ann Monti, daughter of Mr. and Mrs. A. J. Monti, Bay St. Louis, were married May 25 at Our Lady of the Gulf Catholic Church. The groom is the son of Mr. and Mrs. Nellus A. Favre Sr.

Students featured in spring piano recital

Piano students of Mrs. John McKenna were presented in their annual Spring Recital Sunday, June 2 at 3 p.m. at her home.

Cultural arts

The Cultural Arts Awards presented during the annual meeting of the Mississippi Extension Homemakers Council to counties compiling the best cultural arts reports are, from left, Hinds County, 1st place, Mrs. Roy Carroll; Warren County, 2nd place, Mrs. J. W. Harris; Hancock County, 3rd place, Mrs. Ethel Breau. About 500 homemakers from throughout the state attended the June 3-5 meeting at Mississippi State University.

Waveland student to attend leadership conference

Cathy Johnson, a member of the Mississippi State University Chapter of Phi Beta Lambda, will leave June 16 for San Francisco, California, to attend the 23rd annual Phi Beta Lambda National Leadership Conference.

She will accompany 25 other students who are members of Phi Beta Lambda at other colleges in the state. Phi Beta Lambda is the national youth organization for postsecondary students who plan to enter careers in business or in business education. The national organization has chartered

over 600 chapters in the United States and has a national membership of 13,000 students. Approximately 500 PLB members and advisers from all over the United States are expected at this year's conference.

The major business of the meeting is the election of national officers for the 1974-75 school year and a series of competitive events between chapters and between state delegations. Events include extemporaneous speaking, typing, business administration, a vocabulary relay, parliamentary procedure demonstrations, and the selection of a Mr. and Miss Future Business Executive and Teacher. Awards for national winners will be presented at the Awards Banquet on June 19.

(Photo by Bob Hubbard)
CATHY JOHNSON

Cathy will participate in discussion groups, business meetings, and general sessions. She will be competing in the business administration contest, since she placed second in this contest at the state level of competition in April at the University of Mississippi. During this convention, Cathy was also elected to the office of reporter for the state of Mississippi.

She has been an active member of Phi Beta Lambda at Mississippi State for the past two years, and also served as vice-president of that chapter for those two years. Cathy was also reelected recently to hold the office of vice-president for the 1974-75 school year.

She is the daughter of Mr. and Mrs. Charles H. Johnson of Waveland, and will be a senior at Mississippi State this fall.

The following awards were presented at graduation exercises: Danforth Award - Marilyn Dedeaux and Peter Davids; Reader's Digest Award - Judy Niolet; Camille Award - Malcolm Jones; Denise Easterling; American Legion Award - Judy Niolet and Malcolm Jones; Band Boosters Award - Denise Easterling.

The following graduates received scholarships: Alumni Scholarship - Malcolm Jones - \$350; Diane Davion - \$150; Ann Wahl - \$50; Gerald and Mrs. Charles H. Johnson Frisby - Memorial, V.F.W. Scholarship - Donna Seller - \$250; Denese Davion - \$500; Diane Davion - Alternate.

Pass Christian graduates largest class in history

Pass Christian High School graduated the largest class in history on May 31. Diplomas were awarded to 101 graduating seniors at commencement exercises held in the high school gym.

The 1974 Valedictorian was Miss Judy Ann Niolet, the daughter of Mr. and Mrs. Herman Niolet of Rt. 1, Box 57, Pass Christian. Judy has an overall four year average of "A" - 97.51 and has earned 20 1/2 credits. The following is a list of Judy's awards and honors she has earned throughout high school: Student Council Secy., Algebra I Award, Art I Award, Library Club Secy., Junior High Basketball Player, "P" Club Treas., Homeroom Treas., English II Award, Geometry Award, Home Ec. II Award, American History Award, Algebra II Award, French I Award, English IV Award, Chemistry Award, American Government Award, American Legion Award, Best Overall English Award, Best Overall Science Award, Home Economics Award, High School Basketball Player, Homemakers of America President, Beta Club.

The 1974 Salutatorian was Miss Donna Sue Seller, the daughter of Mr. and Mrs. Harold Seller, Rt. 2, Box 788, Pass Christian. Donna has an overall four year average of "A" - 95.39 and has earned 20 1/2 credits. The following is a list of Donna's awards and honors received: Miss History and Civics Awards, P. E. Award, English III Award, Shorthand I Award, Outstanding High School Award, Secretarial Training Award, Bookkeeping Award, Overall Business Education Award, Kalif. Memorial Award, Library Club, Beta Club.

The following awards were presented at graduation exercises: Danforth Award - Marilyn Dedeaux and Peter Davids; Reader's Digest Award - Judy Niolet; Camille Award - Malcolm Jones; Denise Easterling; American Legion Award - Judy Niolet and Malcolm Jones; Band Boosters Award - Denise Easterling.

P.T.A. Scholarship - Denese Davion - \$175; West Harrison Jaycee - \$100; Glenda Dubisson - \$200; Pass Christian Jaycee - Glenda Dubisson - \$100; Kalif. ACT Sch. - Jackson State - Gene Bradley - \$7,200. Band Schl. were awarded to the following at Perkinson for

\$500: Gene Bradley, Yvonne Alexander, Judy Ambrose, Denese Easterling, and Terry Shull. A \$10,000 Xavier Scholarship was awarded to Marilyn Dedeaux.

Pass Christian VFW sponsors film showing

by Bob Innes
Pass Christian senior citizens Monday viewed the cancer film, "On With Your Life," at the Pass-VFW Post.

The film stars Peter Graves of the television series "Mission Impossible." Graves is this year's national co-chairman for the crusade for the American Cancer Society. The film stressed complete check-ups and Procto's value of time. The time value urges an early check-up and a Procto exam, which can detect seven out of eight colon cancers which could be cured if caught in time.

Miss Margo Barge followed the film presentation and spoke about the National Cancer drive to begin June 21 in this area. The area director for the American Cancer Society asked the citizens to

welcome volunteers when they call on homes.

Heading the crusade will be Mrs. Edna Szymanski, chairman of the drive for the Pass Christian area. Also expected to help out will be members of the Ladies Auxiliary to V.F.W. Post No. 5831.

Mrs. Byrd Cassibry from the Area-Wide Model Project for the elderly complemented the auxiliary on their programs for the senior citizens group, stating that "they were great and because of the fine job being done guidance from the head office is not needed."

Following the film program refreshments were served by Mrs. Patricia Neacise, Louise Ulrich, Kathleen Morris, Mary Ann Meyers, Janet Anderson and Norma Bonney, auxiliary members.

Tender Loving Care

Irmay Day and Ann Garcia (nursing service) attended a one-day workshop on CPR at Hotel Dieu in New Orleans. The workshop was sponsored by the American Heart Association.

Connie McCain (inhalation therapy) is presently vacationing in Hawaii.

Beezie Orlando (X-Ray) spent last weekend with her family in New Orleans and shared in the celebration of her sister's wedding.

Po-boy sale

The Ladies Auxiliary of V.F.W. Post 5931 will hold a roast beef and ham po-boy sale Thursday June 20 from 11 a.m. until 2 p.m.

The sale will be at the Post home and the ladies ask that call in orders be directed to Mrs. Inez Bouldin at 452-2661.

Echoes

Mr. and Mrs. Delos-Watson and children Lauren, John and Edward of Houston, Texas, have returned home after a week's visit with her parents Mr. and Mrs. B. D. Johnson. Enroute home they stopped in New Orleans for a visit with Mrs. Watson's brother and sister-in-law Mr. and Mrs. Burton Johnson and family.

Mr. and Mrs. Nolan Kingston recently attended a Blossman Gas Company Managers meeting in Destin, Florida.

Miss Shirley Kingston visited over the weekend with her parents Mr. and Mrs. Nolan Kingston.

Your electric power: It's our full-time job.

Your need for electric power never stops, and that's why your Electric Power Association is on the job day and night to assure you that electricity is there when you need it. In emergencies, EPA line crews are on the job regardless of the weather, to restore your electric service promptly. And every day, our people stay busy expand-

ing and improving our facilities to serve the growing electric power needs of our area. We're totally committed to the progress of the area we serve, and since progress depends on electric power, we do our best to see to it that it's always there. You can take electricity for granted—because with us, it's a full-time job.

Late registration continues at Gulf Park and at Jackson County Attendance Center from 1-5 p.m., June 4-13.

Gulf Park choral camp climaxes with a concert

by Bob Innes

The 12th annual State Choral Camp climaxed a week of rehearsals with a concert in the Gulf Park auditorium Friday in Long Beach.

Some 160 of Mississippi's top choral students attended the five-day event on the Gulf Park campus of the University of Southern Mississippi, sponsored by the Mississippi Music Education Association Choral Division.

Choral director for the five-day event was Donald Neven, director at the University of Tennessee.

Among those attending the camp were Wendy Czabator of Gulfport East High School and Stan Spillers of Biloxi High, elected to attend the camp on a full scholarship.

Mrs. Hilda Barnes served as camp housing director. This is the third year the camp has been held at Gulf Park.

Chosen by their respective choral directors, students worked in the mornings rehearsing and sight reading musical selections for possible

consideration at the state choral festival.

In the afternoons, students split into their vocal sessions for individual instruction, followed by a recreation period.

Each day at 6:30 p.m. students participated in an impromptu talent concert performing for one another. The remainder of the evening was spent in class with Neven.

Miss Ernestine Ferrell of Jackson, state music supervisor, was in charge of the camp. Others assisting were Mrs. Quay Miller, state choral chairman; R. L. Hullum, vice chairman; Miss Jackie Folk, secretary; and Henry D'Aquila, campus coordinator for conferences.

Barney McCann from Hinds Junior College served Neven as accompanist.

Local students attending the camp included: Long Beach Junior and Senior High; Susan Bland, Tim Carpenter, Marilyn Carrubba, Ben Delerence, Jenny Douglas,

Cathy Gerriars, Karen Glancey, Clark Hendrick, Cathy Keen, Pam Necaise, Jim Ortenstone, Cindy Pitts, Renee Rishel, Meredith Schmiege, Cathy Shedd, Joe Sunde, Jenny Taylor and Casey Wehnt. Mrs. Joann Edwards, director also accompanied the group.

RECIPIENTS Veterans of Foreign Wars Awards at Annunciation School in Kiln were, from left, Doris Ladner, Denette Swilley, and Chris Martin. Harold Cospelich presented the certificates. (Photo by Ed Fayard)

By L.S. (Doc) Elliott

No use talking about fishing, trying to explain why its good or bad, it ain't what it used to be. Some fish are caught every day. But a good catch is a rarity at this time, according to where you are fishing.

Some speckle trout are still being caught off St. Stanislaus wharf and the American Legion Pier. As for fresh water fish they are being caught in the lakes at Clermont Harbor, Colby's lake, Ed Ortt's pond and Dodson's pond. They are hitting late in the evening.

Other spots like Black Bayou, Mills Bayou and Johnson Pass bass are being caught on the fly rod and by casting. Perch are being caught on fly rod bugs and by still fishing with earth worms and crickets, tad poles and small crayfish.

Speckle trout where they can be found are hitting live shrimp and plugs.

Floundering is getting better and a few soft crabs are being caught late at night. This is regulated by what time the tide goes out.

Traveling even comes under sports. Thirty-five young folks from this section left Bay St. Louis Monday for a trip to Mexico City sponsored by the St. Stanislaus Student Tour, with their chaperones, Mrs. Helen Currie and Brother Edwards Boldi o c e d a, Brothers Timothy and Leon Stock etc. accompanying them. The trip will last a week. Among them is one of our granddaughters. Hope these young folks had a grand time.

Rusty Russ, a young fisherman, fishes, catches crabs, and flounders. Rusty is all ready to go. Tells some good fishing stores but can back them up.

Henry Capdepon celebrated his birthday last Thursday. Happy birthday, Henry. Henry was not to much of a fisherman but got his share of the funny tribe. Had a lot of his friends who caught them for him.

Met James O. Norm and who was a good fisherman and still is. James used to be with Doctor Irwin out on Jourdan River in the good old days. Ain't what it used to be eh! James? "Darwood on the Jordan" brings back old memories.

Marvin Dobson hasn't been fishing lately, plays golf mostly. He told us of a nice mesh of fish he got from Dick Merrich, some speckles and one mackerel. Why go fishing, Marvin said?

Sarge Garcia went crabbing and forgot to put the nets over. Result no crabs. His sons gets the crabs for him. It's a joke, but true. Ask Sarge.

Clarence Carrio comes this way from Mobile quite often to fish with Pete and Roy Strong. All three are real fishermen. Clarence gets his share of fish, you can be sure.

Roy Strong, Pete's brother came down from Lafayette, La. for a week's fishing. Didn't catch any fish because Pete wouldn't show him where to catch 'em. Believe this or not.

Luke Elliott, our son, from Baton Rouge, came down over the weekend to do some fishing. We caught some perch and bass by the hardest. Roy Garner was our fishing partner. Fishing up Pearl River way is improving right along. In the next week or so fresh water fishing should be at its best providing there isn't too much rain.

busy cutting grass-a new business he has entered into. Ray has caught his share of perch and bass. His phone no. is 467-6190.

Arnold DeSilvey of Lakeshore was elected president of Gulf Fishermen Inc. recently. Other officers elected included vice-president Mrs. Joyce Garcia of Lakeshore, secretary and

Jerry Carver of Bay St. Louis, treasurer. The club approved its by-laws and instructed its attorney to file for a charter. The organization was formed to seek aid for the small commercial fishermen of this area.

For you fishermen who fish in Louisiana remember that you have to have a La. license. Fishing licenses are

required of all persons angling with rod and reel who have reached their 16th birthday and are under 60 years of age. Any person who has resided in Louisiana for two or more years, prior to application, and 60 years of age or older, shall be issued a free fishing permit.

Your fishing license or permit must be carried on your person at all times. La.

licenses can be purchased at Baxters' fishing camp at Pearlinton.

Speaking about Roy Baxters' Fishing Camp at Pearlinton, when wanting a place to launch your boat, or rent one Baxters is the place. Storing boats is his specialty. See Roy, he's a good guy to know.

Students rewarded at St. Paul's ceremonies

The Children's Mass at St. Paul's Church, Pass Christian was planned by the sixth grade children.

Theme of the Mass was "Happiness". Father John O'Brien was the celebrant and Janet Blazick, a sixth grader, was the lector. Father Michael Clifford addressed the class.

Immediately following the Mass children of St. Paul's School were presented awards by Miss Adele Bielenberg, principal, assisted by Father O'Brien and members of the faculty.

Sherrod Willett III son of Mr. and Mrs. Sherrod Willett Jr.; and Julie Boudreaux, daughter of Mr. and Mrs. Ned Boudreaux, received the American Legion Awards.

Other awards received by sixth graders were presented by Mrs. Barbara Brown, teacher:

Achievement — Sherrod Willett III, Julie Boudreaux, Eldon Spear, Donyele LaCoste, and Janet Blazick. Citizenship — Thomas Schmidt and Ann James.

Spelling — Marty Keel and Cheri Prince. Reading — Lawrence Yarborough and Donyele LaCoste.

BWYC

Backwash

sixth, with crew Chris Stieffel and Buzzy Heausler.

The final standings for the four clubs are as follows:

Bay Waveland Yacht Club 205½;

Gulfport Yacht Club 147½;

Pass Christian Yacht Club 94½;

Biloxi Yacht Club 86.

Trophies were presented by Biloxi Y.C. Commodore

Joachim to the first four skippers of each race. Mrs.

Henry Chapman made the presentation of the Chapman

Memorial Trophy to her son-in-law, Commodore Ray

Stieffel of BWYC and the team captain Charlie Staehle.

As though they had not had enough sailing in the previous

three days, a group of expert skippers assembled their

crews and equipment on Monday and made a long and

rather arduous trip (ten hours) to bring Bay

Waveland's Flying Scots back home from Biloxi Yacht Club.

They were met at their harbor entrance by the Commodore

and Race Committee chairman in the committee boat

with a horn blast for each skipper as they returned.

LASAGNA DINNER-The BWYC Ladies Auxiliary met

on Tuesday, June 11, to make plans for the big Lasagna

Dinner to be held Saturday, June 29, at BWYC. Reser-

vations must be made in advance.

SEARS QUARTER-FINALS-Southern Yacht Club

will host the Flying Scot and Sunfish Sears Quarter-Finals

on June 15 and 16. Representing Bay Waveland

in the Scots will be skipper Bubby Eagan and his crew

Ellen Eagan and Chris Stieffel. Rod Stieffel will enter

the Sunfish competition as Bay Waveland's representative.

English — Todd Erichsen and Desiree Davion. Science — Eldon Spear, Sherrod Willett and Janet Blazick.

Social Studies — Eldon Spear and Julie Boudreaux. Mathematics — Bryan Negrotto and Kris Bludnick. Art — John Peranich.

Honor Award — Nominee to C.I.S.V. — Bryan Negrotto. Library Reading certificate — Julie Boudreaux.

The following children were presented. Certificates of Promotion from the sixth grade and will attend schools in the surrounding area next fall.

They were: Scholastic Achievement — Mike McMahon, Dave Sorensen, Patricia Schmidt, Suzanne Graham.

Citizenship — Casey Wittmann, Jeanne Boudreaux, Patricia Schmidt.

Reading — Kerry Bludnick and Jeanne Bourdin. Spelling — Darrin Scarborough, Casey Wittmann, Carolyn Allen, and Jackie Holling.

Mathematics — Kerry Bludnick, Alyce Negrotto and Karla Gindrosich. Language Arts — Darrin Scarborough and Valentine Dedeaux.

Pennmanship — Darrin

Achievement — Otis Gates, Chuck Yarborough, and Leonese Govan. Mathematics — Chuck Yarborough, Otis Gates and Leslie Johansen.

Reading — Bill Marquez, Courtney Rutherford and Leonese Govan. Spelling — Stephanie Simpson, Suzy Stewart and Otis Gates.

Citizenship — Glenda Young and Chuck Yarborough. Attendance — Adolph Bourdin and Regina Ladner.

Miss Susan Anthony, Second Grade teacher, presented awards to children in her class.

They were: Scholastic Achievement — Mike McMahon, Dave Sorensen, Patricia Schmidt, Suzanne Graham.

Citizenship — Casey Wittmann, Jeanne Boudreaux, Patricia Schmidt.

Reading — Kerry Bludnick and Jeanne Bourdin. Spelling — Darrin Scarborough, Casey Wittmann, Carolyn Allen, and Jackie Holling.

Mathematics — Kerry Bludnick, Alyce Negrotto and Karla Gindrosich. Language Arts — Darrin Scarborough and Valentine Dedeaux.

Pennmanship — Darrin

SHERROD WILLETT

Scarborough and Valentine Dedeaux.

Miss Connie French, Third Grade Teacher, presented awards to the boys and girls of her class:

Achievement — William Montgomery and Mary Yarborough. Reading — William Montgomery and Mary Yarborough.

Spelling — John McDonald, Darlene Hammock, and Charlotte Logan. Mathematics — Billy Bourdin and Carey Simpson.

Citizenship — John Kimball, and Michelle Reid. Handwriting — William Montgomery and Charma Dudley.

Attendance — Paul Bourdin, John McDonald, and Mary Yarborough.

Miss Margaret Jean Kalif, Fourth Grade teacher

presented awards for: Achievement — Richard Carrubba, and Kelly Sorensen.

Citizenship — Rex Vaught and Beth Schmidt. Most Improvement during the year — Sean Logan.

Reading — Rex vaught, Richard Carrubba, Kelly Sorensen, Beth Schmidt and Theresa Wittmann.

Mathematics — Chuck Donlin, Kelly Sorensen. Science — Rex Vaught, Richard Carrubba, Beth Schmidt.

Social Studies — Sean Logan, Kelly Sorensen. English — Richard Carrubba, and Theresa Wittmann.

Pennmanship — Rex Vaught and Kelly Sorensen, Theresa Wittmann.

Attendance — Denise Bourdin, Nancy Ladner, and Kelly Sorensen.

Mrs. Lucy KoVace presented awards to children of her fifth grade class:

Achievement — Wendy Erichsen, Brian Logan, Andy Boudreaux, Edith Yarborough, and Roy Willett.

Spelling — Andy Boudreaux, Edith Yarborough. Mathematics — Windy Erichsen, Edith Yarborough, Brian Logan.

Scholastic Award in English and Special Reports — Roy Willett.

Build a better spear hurler

and you could win second place in the National Catapult Contest, as Maurice Reynaud and Henry Wilkinson, above, did. The real star is Hercules, center, officially classified as a "heavyweight twisted-rope spear hurler," which brought its creators, both Bay Senior High students, first place honors in the Latin division of the state High School Foreign Language Fair in April, then catapulted them to national-level honors in Indianapolis.

Bay Hi catapult hits second place in National Catapult Contest

Maurice Reynaud and Henry Wilkinson, who graduated last month from Bay Senior High School, have been notified that the Roman catapult model which they built during their Latin course last spring has won second place in its division in the National Catapult Contest held annually in Indianapolis, Indiana.

Their machine, officially named "Hercules" and classified as a Heavyweight Twisted-Rope Spear Hurler, hurled its one-pound projectile a distance of 110 feet. In Roman warfare it was used to throw flaming spears over city walls onto thatched roofs within. The Bay High model was constructed according to diagrams and

specifications given in books on ancient weapons of war. The national contest, sponsored each year by the Consilium Catapultarum of Washington Township at Indianapolis, invites Latin students throughout the nation to build working models of Roman catapults and attempt to match the catapulting records of old.

A typical Roman feast capped national contest festivities, held at the Marriott Hotel in Indianapolis. Delegates from Latin clubs throughout the states, the two Bay High winners among them, reclined on cushions on the floor and ate "Roman" delicacies from low tables. Costume de rigueur for the evening was togas, of course! This year 40 machines were entered in the competition. New records set include a 20-pound rock hurled 537 feet by the Wilmington, Ohio, High School; a 600-pound rock tossed 15 feet 8 inches by a Fort Wayne, Indiana, school; and a one-pound spear shot 688 feet 3 inches by a Lightweight Bent-wood Spear Hurler from Pascagoula, Mississippi. The catapult built by the Bay Senior High students had previously won first place in the state in the Latin division of the High School Foreign Language Fair held in Hattiesburg in April.

Freemasonry degree conferred on Coleman

Robert Higdon Coleman of Bay St. Louis has been awarded the designation of Knight of the York Cross of Honour, it was reported today. This honorary degree, highest in the York Rite of Freemasonry, is conferred only on those who have held

the highest office in each of the four bodies of the rite. Mr. Coleman becomes one of the comparative handful of about 400 of the over four and a quarter million Freemasons in North America and the Philippines to qualify this year.

Mr. Coleman served as Master of Polar Star Lodge of Masons in 1931; High Priest of Gulfport Chapter, Royal Arch Masons in 1972; Master of Gulfport Council, Royal and Select Masters in 1972; Commander of Gulfport Commandery, Knight Templar, in 1973. He was elected to membership in Mississippi Priory and his election confirmed by Convent General of the Order on June 4. A certificate of membership has been mailed to him. There are 65 Priories of the Order in North America and the Philippines with a present membership of 9,350.

Brief

BOARD MEETING

Mrs. L. W. Nybo, Bay-Waveland Garden Club president, has called a special board meeting for 2 p.m. June 24 at her home, 311 Main Street. All board members are urged to attend.

Births

Mr. and Mrs. Thomas Turfitt Jr. of Starkville, Miss., announce the birth of their first child, a daughter, Amber Marie, at 12:00 noon—June 10 at Lowden County Hospital, Columbus, Miss. She weighed five pounds, 14 ounces. Mrs. Turfitt, the former Laurie Baxter is the daughter of Mr. and Mrs. J.C. Baxter Jr., Bay St. Louis. Paternal grandparents are Mr. and Mrs. Turfitt Sr., Greenville, Miss.

Garden Club district meeting

Members of Bay-Waveland Garden Club attending the Spanish Trail District workshop in Columbia, Miss., June 5, were Mesdames L. W. Nybo, Club president, Herman Mazarakis, Edward Thompson and O. Duke. John Blalock of Sears discussed the environmental program for the coming year.

Hancock County Flood Protection Ordinance

ED NOTE: As a service to the public, the Sea Coast Echo reprints below the Flood Protection Ordinance of Hancock County as adopted by the county board of supervisors at a May 28 meeting. Article VIII, Section 2 through 3.1 is omitted as it deals with specific construction tables and specifications and may be read at the county Chancery Clerk's office.

AN ORDINANCE known as the Flood Protection Ordinance of Hancock County, Mississippi, regulating land use and control measures for special flood hazard areas in conjunction with regulations established by the Federal Insurance Administration, Department of Housing and Urban Development for maintaining Hancock County's eligibility in the National Flood Insurance Program as printed in the Federal Register on September 10, 1971.

SECTION I. BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF HANCOCK COUNTY, MISSISSIPPI, that Ordinance No. 1, known as the Flood Protection Ordinance of Hancock County, Mississippi, is hereby created as follows:

LAND USE AND CONTROL MEASURES
Article I Purpose of Chapter.

Article II Definitions.

Article III Building Permits Required.

Article IV Permitted Uses and Special Exceptions.

Article V Building Permits Reviewed.

Article VI Utilization of Neighboring Flood Management Programs.

Article VII Waiver of Regulations.

Article VIII Penalties for Violation of Land Use and Control Measures for Flood-Prone Areas.

Article IX Conflicting Flood-Prone Area Regulations with Other Ordinances; Additional Provisions Required.

ARTICLE I. PURPOSE OF CHAPTER

The principal purposes are to promote the public health, safety and general welfare; to minimize damage caused by flooding; to take into account flood plain management programs in effect in neighboring areas; to restrict or prohibit uses which are dangerous to health, safety or property in times of flood or cause excessive increases in flood heights or velocities; to require that structures be protected against flood damage at the time of initial construction; to protect individuals from buying structures which are intended for flood-prone areas; to provide for minimum requirements for land use and control measures for special flood hazard areas.

in Hancock County, Mississippi, as determined by the Federal Insurance Administration (FIA) of the Department of Housing and Urban Development. These regulations are based upon relevant technical storm data specific to Hancock County by the U.S. Geological Survey for the F.I.A. These measures must be applied uniformly throughout all privately and publicly owned land within the special flood hazard areas, based upon standards set forth in these regulations, as prescribed by the Federal Insurance Administrator.

The F.I.A. official flood hazard map no. H-1-28-045-0000-03 thru 07 and 1-28-045-0130-02, 2740-02, is hereby made official and a part of these regulations, and is on file with the clerk of the Bd. of Supervisors. Also, the following maps will be used for supporting information: "Hurricane Camille Tidal Floods of August, 1969, Along the Gulf Coast," prepared by the U.S. Geological Survey. "Hurricane Critical Exposure Zone Maps," prepared by the Coast Code Administration.

ARTICLE II. DEFINITIONS

Federal Insurance Administrator—the individual to whom the Secretary of the Department of Housing and Urban Development has delegated the administration of the program (34 F.R. 2680-81, February 27, 1969).

Flood Plain Management Program—the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works, and land use and control measures.

Floodproofing—any combination of structural and nonstructural additions, changes, or adjustments to properties and structures which reduce or eliminate flood damage to lands, water

Hancock County Flood Protection Ordinance

(Continued from Page 11)

manent site. Permanent construction does not include land preparation, land clearing, grading, filling, excavation for basements, footings, piers, or foundations; erection of temporary forms, installation of sewer, gas and water pipes, or electric or other service lines from the street or existence on the property of accessory buildings such as garages or sheds, not occupied as dwelling units or not a part of the main structure.

Official Flood Hazard Map—An official map or plat of a community or county issued and approved by the Federal Insurance Administrator, on which the boundaries of the special flood hazard areas have been drawn. Areas of special flood hazards are those which may be flooded in the event of a 100 year flood.

Residential Structure—a building or portion thereof, designed or used exclusively for residential occupancy but not including trailers, hotels, motels, and motor lodges.

Special Flood Hazard Areas—areas within the flood plain that have been designated by the Administrator on official flood hazard maps as "special flood hazard areas" which may be flooded in the event of a 100 year flood.

Substantial Improvement—any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the actual cash value of the structure either (a) before the improvement is started, or (b) if the structure has been damaged and is being restored, before the damage occurred. Substantial improvement is started when the first alteration of any structural part of the building commences.

ARTICLE III. BUILDING PERMITS REQUIRED

Section 1. Securing of Permit
It shall be unlawful to proceed with any new construction, substantial improvement, or major repair to a building within Hancock County without having previously obtained a permit properly numbered and approved from the Building Official designated by the Board of Supervisors to issue such permits.

It shall be the duty of the County Sheriff's Department to see that such work requiring a permit is authorized and to report the absence of a permit to the Building Official. All work shall be subject to inspection whether a permit is required or not, at the discretion of the Building Official.

Section 2. Required First Flood Elevation

All building permits issued for new construction must have imprinted upon them the mean sea level elevation of the lowest floor (including basement) and the level of the 100 year flood (12.5 feet mean sea level). Said elevation requirements shall apply to all new residential and non-residential structures.

However, if the non-residential structure and its attendant utility and sanitary facilities are constructed below the 12.5 foot MSL, then the non-residential structure and its attendant utility and sanitary facilities must be floodproofed up to the level of the 100-year flood (12.5 feet MSL).

Section 3. Requirement for Lowest Floor of New Construction to be Elevated at or above the Level of the 100 Year Flood (12.5 feet MSL).

(a) It shall be the responsibility of the Building Official to act as depository for the first floor elevation records and to assign required first floor elevation. The notation shall be made on the face of the building permit. The first floor elevation of new residential construction must, at a minimum, be elevated to the level of the 100 year flood (12.5 feet MSL) as determined by the F.I.A. Official Flood Hazard Maps.

(b) Upon application for a building permit, and prior to the issuance of a Use and Occupancy Certificate, the applicant must present a Grade Certificate to the Building Official which shows the mean sea level elevation of the first floor of the structure.

ARTICLE IV. PERMITTED USES AND SPECIAL EXCEPTIONS

Section 1. Permitted Uses
The following open space uses shall be permitted within the special flood hazard area to the extent that they are not prohibited by any other ordinance and provided they do not require structures, fill or storage of materials or equipment. In addition, no use shall adversely affect the efficiency or unduly restrict the capacity of the channels or floodways of any tributary to the main stream, drainage facility or system.

(a) Agricultural uses such as general farming, pasture, grazing, outdoor plant nurseries, horticulture, viticulture, truck farming, forestry, sod farming, and wild crop harvesting.

(b) Industrial-commercial uses such as loading areas, parking areas, airport land strips.

(c) Private and public recreational uses such as golf courses, tennis courts, driving ranges, archery ranges, picnic grounds, boat launching areas, parks, wildlife and nature preserves, game farms, fish hatcheries, shooting preserves, target ranges, trap and skeet ranges, hunting and fishing areas, hiking and horseback riding trails.

(d) Residential uses such as lawns, gardens, parking areas and play areas.

Section 2. Special Exceptions
(a) All uses other than those specified in Section 1 are permitted only upon application to the Building Official and the issuance of a specific exception by the Board of Supervisors.

(b) Structural or other uses shall be permitted within the special flood hazard area to the extent they are not prohibited by any other ordinance and they meet the following applicable standards.

(c) All new construction or substantial improvements of residential structures within the area of special flood hazards must have the lowest floor (including basement) elevated to or above 12.5 feet mean sea level.

(d) The fill on which residences are constructed shall be at the minimum height of 12.5 feet above MSL and shall extend at such elevation at least 15 feet beyond the limits of any structure or building erected thereon.

(e) All public utilities and facilities including water, sewer, gas and electric shall be located, elevated and constructed to minimize or eliminate flood damage. Where existing streets or utilities are at elevations which make compliance with this provision impractical, or in other special circumstances, the Board of Supervisors may authorize other techniques for elevation.

(f) All new developments must have adequate drainage facilities provided to reduce exposure to flood hazards and must be consistent with the need to minimize flood damage.

(g) In riverine situations, no use, including land fill, may be permitted unless the applicant demonstrates that the proposed use, when combined with all other existing and anticipated uses, will not increase the water surface elevation of the 100 year flood (12.5 feet above MSL) more than one (1) foot at any point.

(h) Any alteration, addition, or repair to a non-conforming structure which would substantially increase its flood damage potential shall be protected as specified in (g) above.

(i) All building permit applications or major repairs within the special flood hazard area shall be required to use construction materials and utility equipment which are resistant to flood damage, and construction methods and practices used must be designed to minimize flood damage.

(j) All new structures in a special flood hazard area shall be adequately anchored.

(k) All new construction or substantial improvements within the special flood hazard area, including prefabricated and mobile homes shall be protected against flood damage and be anchored to prevent flotation, collapse, or lateral movement of the structure.

ARTICLE V. BUILDING PERMITS REVIEWED

It shall be the responsibility of the Building Official to assure that:

(a) The first floor elevation of new residential structures be at or above the level of the 100 year flood (12.5 feet MSL).

(b) All new construction or substantial improvements of non-residential structures within the special flood hazard area shall have the lowest floor including basement elevated to or above the level of the regulatory flood protection elevation (12.5 feet MSL), or together with attendant utility and sanitary facilities, to be floodproofed up to the level of the regulatory flood protection elevation (12.5 feet MSL).

(c) It shall be the responsibility of the Building Official to assure that: the applicant

submit a plan or document certified by a registered professional engineer that the flood proofing measures are consistent with the 100 year flood (12.5 feet MSL) and associated flood factors for the particular area. The following floodproofing measures may be required without limitation because of specific enumeration:

a. Anchorage to resist flotation and lateral movement

b. Installation of watertight doors, bulkheads, and shutters, or similar methods of construction.

ARTICLE VI. UTILIZATION OF NEIGHBORING FLOOD PLAIN MANAGEMENT PROGRAMS

Consideration of individual flood plain management programs in neighboring counties shall be given in an approach to overall flood management in Hancock County.

ARTICLE VII. WAIVER OF REGULATIONS

Section 1. Function of the Board of Supervisors

It shall hereby be the function of the Board of Supervisors to hear petitions supporting waivers in these regulations.

Section 2. Procedure for appeal from the decision of the Building Official.

Any applicant for a permit from the Building Official required by these flood insurance provisions whose application has been refused or revoked, or any person who has been ordered by the Building Official to incur any expense, or any person who feels that there are practical difficulties or unnecessary hardships involved in the way of carrying out the strict letter of these provisions or where it is alleged that there is an error in any order, requirement, decision, or determination made by the Building Official may, within fifteen (15) days after being notified of such refusal or order, appeal from the decision of the Building Official to the Board of Supervisors by giving the Building Official notice in writing that he will so appeal. Said notice shall be accompanied by a check in the amount of twenty-five (\$25) dollars, which amount is to be retained by the County.

It shall be the duty of the Board of Supervisors:

a. To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by the Building Official in the enforcement of these special flood hazard area regulations.

b. To hear and decide all matters referred to it or upon which it is required to pass under these special flood hazard area regulations.

c. To pass upon appeals where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of these special flood hazard area regulations, to vary or modify the requirements of any of the regulations or provisions of such articles relating to the construction or alteration of buildings or structures so that the spirit of these provisions shall be observed, public safety and welfare secured, and substantial justice done.

d. To interpret the intent or meaning of these special flood hazard area regulations and so advise the Building Official and to recommend such amendments or revisions as may be required from time to time to meet changing conditions.

In order to carry out the above mentioned conditions, the Board of Supervisors may reverse or affirm wholly or in part, or may modify the order, requirement, decision or determination of the Building Official, or to decide in favor of the applicant in any matters on which it is required to pass under these provisions, or to effect any variation in these provisions.

Decisions of the Board of Supervisors shall state in writing the waivers or denials granted and conditions, if any, as they may require in such action. All decisions shall be kept on file, and a certified copy sent to the applicant by certified mail. The Building Official shall abide by the actions taken by the Board of Supervisors.

ARTICLE VIII. PENALTIES FOR VIOLATION OF LAND USE AND CONTROL MEASURES FOR SPECIAL FLOOD HAZARD AREAS

The owner or general agent of a building or premises where a violation of any regulation for special flood hazard areas is committed, or the general agent, architect, builder, contractor, or any other person who assists in such violation or who maintains any building or premises in which the violation exists shall be fined not less than ten (\$10) dollars and not more

than one hundred (\$100) dollars, and each day such violation continues shall constitute a separate offense.

ARTICLE IX. CONFLICT OF SPECIAL FLOOD HAZARD AREA REGULATIONS WITH OTHER ORDINANCES: ADDITIONAL PROVISIONS EFFECTIVE IN CRITICAL EXPOSURE ZONE

Within the special flood hazard area the foregoing provisions and control measures designed to reduce flood losses shall take precedence over any conflicting laws, ordinances, or codes. The following additional provisions shall apply:

Section 1-Critical Exposure Zone

All land lying within 1,000 feet of the Mississippi Sound, as hereinafter defined, and all land north of the aforesaid area to the 15-foot contour line, and all lands, waters, and bottoms within jurisdictional limits lying south of and within one mile of the shoreline of the Mississippi Sound is hereby designated a Critical Exposure Zone, within which the additional provisions of Sections 2 and 3 shall apply. The shoreline referred to herein shall be the mean high tide line of the Mississippi Sound, together with straight lines across the mouths of bays, estuaries and rivers flowing into or connecting with said Sound.
